In the Matter of the Suspension or Revocation of the License of SARASAVANI JAYARAM, M.D. To Practice Medicine and Surgery In the State of New Jersey	ORDER OF LICENSURE REACTIVATION

This matter was re-opened before the State Board of Medical Examiners (the "Board") upon the request of respondent Sarasavini Jayaram, M.D. to resume the practice of medicine and surgery in the State of New Jersey. Pursuant to the terms of a previous consent order filed in this matter on February 21, 1990, respondent was prohibited from practicing medicine in any manner in New Jersey unless and until she appeared before a committee of the Board for a status conference; accordingly, respondent did appear for a status conference before a Preliminary Evaluation Committee of the Board on August 22, 1990, at which time she was represented by Kern Augustine Conroy & Isele, Steven I. Kern, Esq., appearing.

At the status conference, respondent offered testimony concerning her present practice in the State of New York, the difficulties that she had previously encountered with the New

York State Medical Assistance Program (Medicaid) and her practice intentions. Upon review of said testimony, the Board is satisfied that sufficient cause exists to formally reinstate the license of Dr. Jayaram's license to practice medicine and surgery in the State of New Jersey. The Board nonetheless expressly notes for the record that the conditions previously set forth in paragraphs 3 and 4 of the February 21, 1990 consent order remain in full force and effect. Said conditions were thus prospective provisions which necessarily were intended to continue to apply to Dr. Jayaram in the event that her license to practice in New Jersey was reinstated. [1]

It thus appearing that sufficient cause exists to reinstate Dr. Jayaram's license, and for good cause shown:

IT IS on this 13 day of February, 1991

ORDERED:

The license of Dr. Sarasavini Jayaram to practice medicine

---

[1] Paragraphs 3 and 4 of the February 21, 1990 consent order, which remain in full force and effect, provide as follows:

> 3. Respondent agrees that if she should be granted permission by the Board of Medical Examiners to resume the practice of medicine in New Jersey, she consents to random audits of her patient charts with regard to billing without prior notice by the Board of Medical Examiners or its designee, regardless of whether she practices independently, in partnership with other physicians, or as an employee.
>
> 4. Respondent shall immediately inform the New Jersey Board of Medical Examiners if any further action is taken with regard to her license to practice or privilege to participate in any governmental program by any state or federal agency.

and surgery in the State of New Jersey is hereby reinstated.
