ABID SHAMIN AZIZ, M.D.	:	FINAL ORDER
License No. MA 65416	:	OF DISCIPLINE
	:	
TO PRACTICE MEDICINE AND SURGERY	:	
IN THE STATE OF NEW JERSEY	:	

---

This matter was opened to the New Jersey State Board of Medical Examiners upon receipt of information which the Board has reviewed and on which the following findings of fact and conclusions of law are made.

FINDINGS OF FACT

1. Respondent, Abid Shamin Aziz, M.D., License No. MA065416, is a physician licensed in the State of New Jersey and has been licensed at all times relevant hereto. As a consequence of Respondent's failure to submit his biennial renewal on June 30, 2005, Respondent's license to practice medicine in the State of New Jersey was automatically suspended pursuant to N.J.S.A. 45:1:7-1(b).

**CERTIFIED TRUE COPY**

2. On or about February 7, 2007, the State of New York Department of Health, entered a Determination and Order based upon findings and conclusions made at a Hearing conducted by a committee of the State Board for Professional Medical Conduct ("BPMC") held on December 13, 2007 for which the Respondent failed to appear. The Committee of the BPMC ordered that the First Specification of professional misconduct, as set forth in the Statement of Charges was sustained and that respondent's license to practice medicine was revoked.

The disciplinary action taken by the New York State Board for Professional Medical Conduct ("BPMC") was based on Respondent's failure to comply with an Order issued by the BPMC requiring Respondent to submit to an examination by a physician designated by the BPMC within 45 days of the effective date of the Order and cooperate with the Multi-disciplinary Assessment Program of Rush Behavioral Health, Rush University Medical Center.

#### CONCLUSIONS OF LAW

1. The above disciplinary action taken by the sister state of New York provides grounds for the suspension of Respondent's license to practice medicine and surgery in New Jersey pursuant to N.J.S.A. 45:1-21(g) in that it is based on the revocation of Respondent's license in another State.

2. Based on the foregoing findings and conclusions, a Provisional Order of Discipline ("POD") was entered by this Board on March 5, 2008 and served upon Respondent at the last known address by regular and certified mail on March 8, 2008.

3. The POD was subject to finalization by the Board at 5:00 p.m. on the 30th business day following entry unless Respondent requested a modification or dismissal of the stated Findings of Fact or Conclusions of Law by submitting a written request for modification or dismissal setting forth in writing any and all reasons why said findings and conclusions should be modified or dismissed and submitting any and all documents or other written evidence supporting Respondent's request for consideration and reasons therefor.

4. A written response was submitted by John W. Hartmann, Esquire, who is a friend of the Respondent and his family on March 28, 2008. Mr. Hartmann informed the Board that the Respondent suffers from a serious mental medical condition and has been in and out of clinics for the past few years and that the Respondent is unable to discuss the terms of the Provisional Order with him. Mr. Hartmann further advises that he has received authority from respondent's mother to write the letter and requests that the status of respondent' license be listed as "inactive" instead of

suspended. Accordingly the Board considered the matter, determined that further proceedings were unnecessary and the POD should be made final as the information supplied supports that the respondent is incapable for medical reasons from discharging the functions of a licensee in a manner consistent with the public's health, safety and welfare.

ACCORDINGLY, IT IS on this 23rd day of May, 2008

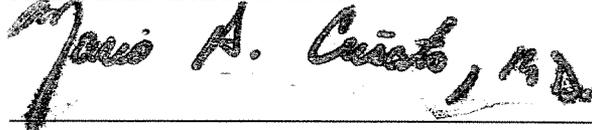

ORDERED that:

1. Respondent's license to practice medicine and surgery in the State of New Jersey be and hereby is suspended until such time as Respondent's license to practice medicine in the State of New York is fully reinstated without any restrictions and has satisfied all aspects of the Order in New York. Respondent shall be subject to the re-application process pursuant to N.J.S.A. 45:1-7.1(d).

2. Prior to the Board entertaining an application for reinstatement and resuming active practice in New Jersey, Respondent shall be required to appear before the Board (or a committee thereof) to demonstrate his fitness to do so, to show that he has satisfied all requirements of the New York State Board of Professional Medical Conduct and any practice of medicine or surgery in this State prior to said appearance shall constitute

grounds for the charge of unlicensed practice. In addition, the Board reserves the right to place restrictions on Respondent's practice should his license be reinstated.

**DIRECTIVES APPLICABLE TO ANY MEDICAL BOARD LICENSEE  
WHO IS DISCIPLINED OR WHOSE SURRENDER OF LICENSURE  
HAS BEEN ACCEPTED**

**APPROVED BY THE BOARD ON MAY 10, 2000**

All licensees who are the subject of a disciplinary order of the Board are required to provide the information required on the Addendum to these Directives. The information provided will be maintained separately and will not be part of the public document filed with the Board. Failure to provide the information required may result in further disciplinary action for failing to cooperate with the Board, as required by N.J.A.C. 13:45C-1 et seq. Paragraphs 1 through 4 below shall apply when a license is suspended or revoked or permanently surrendered, with or without prejudice. Paragraph 5 applies to licensees who are the subject of an order which, while permitting continued practice, contains a probation or monitoring requirement.

**1. Document Return and Agency Notification**

The licensee shall promptly forward to the Board office at Post Office Box 183, 140 East Front Street, 2nd floor, Trenton, New Jersey 08625-0183, the original license, current biennial registration and, if applicable, the original CDS registration. In addition, if the licensee holds a Drug Enforcement Agency (DEA) registration, he or she shall promptly advise the DEA of the licensure action. (With respect to suspensions of a finite term, at the conclusion of the term, the licensee may contact the Board office for the return of the documents previously surrendered to the Board. In addition, at the conclusion of the term, the licensee should contact the DEA to advise of the resumption of practice and to ascertain the impact of that change upon his/her DEA registration.)

**2. Practice Cessation**

The licensee shall cease and desist from engaging in the practice of medicine in this State. This prohibition not only bars a licensee from rendering professional services, but also from providing an opinion as to professional practice or its application, or representing him/herself as being eligible to practice. (Although the licensee need not affirmatively advise patients or others of the revocation, suspension or surrender, the licensee must truthfully disclose his/her licensure status in response to inquiry.) The disciplined licensee is also prohibited from occupying, sharing or using office space in which another licensee provides health care services. The disciplined licensee may contract for, accept payment from another licensee for or rent at fair market value office premises and/or equipment. In no case may the disciplined licensee authorize, allow or condone the use of his/her provider number by any health care practice or any other licensee or health care provider. (In situations where the licensee has been suspended for less than one year, the licensee may accept payment from another professional who is using his/her office during the period that the licensee is suspended, for the payment of salaries for office staff employed at the time of the Board action.)

A licensee whose license has been revoked, suspended for one (1) year or more or permanently surrendered must remove signs and take affirmative action to stop advertisements by which his/her eligibility to practice is represented. The licensee must also take steps to remove his/her name from professional listings, telephone directories, professional stationery, or billings. If the licensee's name is utilized in a group practice title, it shall be deleted. Prescription pads bearing the licensee's name shall be destroyed. A destruction report form obtained from the Office of Drug Control (973-504-6558) must be filed. If no other licensee is providing services at the location, all medications must be removed and returned to the manufacturer, if possible, destroyed or safeguarded. (In situations where a license has been suspended for less than one year, prescription pads and medications need not be destroyed but must be secured in a locked place for safekeeping.)

### **3. Practice Income Prohibitions/Divestiture of Equity Interest in Professional Service Corporations and Limited Liability Companies**

A licensee shall not charge, receive or share in any fee for professional services rendered by him/herself or others while barred from engaging in the professional practice. The licensee may be compensated for the reasonable value of services lawfully rendered and disbursements incurred on a patient's behalf prior to the effective date of the Board action.

A licensee who is a shareholder in a professional service corporation organized to engage in the professional practice, whose license is revoked, surrendered or suspended for a term of one (1) year or more shall be deemed to be disqualified from the practice within the meaning of the Professional Service Corporation Act. (N.J.S.A. 14A:17-11). A disqualified licensee shall divest him/herself of all financial interest in the professional service corporation pursuant to N.J.S.A. 14A:17-13(c). A licensee who is a member of a limited liability company organized pursuant to N.J.S.A. 42:1-44, shall divest him/herself of all financial interest. Such divestiture shall occur within 90 days following the the entry of the Order rendering the licensee disqualified to participate in the applicable form of ownership. Upon divestiture, a licensee shall forward to the Board a copy of documentation forwarded to the Secretary of State, Commercial Reporting Division, demonstrating that the interest has been terminated. If the licensee is the sole shareholder in a professional service corporation, the corporation must be dissolved within 90 days of the licensee's disqualification.

### **4. Medical Records**

If, as a result of the Board's action, a practice is closed or transferred to another location, the licensee shall ensure that during the three (3) month period following the effective date of the disciplinary order, a message will be delivered to patients calling the former office premises, advising where records may be obtained. The message should inform patients of the names and telephone numbers of the licensee (or his/her attorney) assuming custody of the records. The same information shall also be disseminated by means of a notice to be published at least once per month for three (3) months in a newspaper of

general circulation in the geographic vicinity in which the practice was conducted. At the end of the three month period, the licensee shall file with the Board the name and telephone number of the contact person who will have access to medical records of former patients. Any change in that individual or his/her telephone number shall be promptly reported to the Board. When a patient or his/her representative requests a copy of his/her medical record or asks that record be forwarded to another health care provider, the licensee shall promptly provide the record without charge to the patient.

## **5. Probation/Monitoring Conditions**

With respect to any licensee who is the subject of any Order imposing a probation or monitoring requirement or a stay of an active suspension, in whole or in part, which is conditioned upon compliance with a probation or monitoring requirement, the licensee shall fully cooperate with the Board and its designated representatives, including the Enforcement Bureau of the Division of Consumer Affairs, in ongoing monitoring of the licensee's status and practice. Such monitoring shall be at the expense of the disciplined practitioner.

(a) Monitoring of practice conditions may include, but is not limited to, inspection of the professional premises and equipment, and inspection and copying of patient records (confidentiality of patient identity shall be protected by the Board) to verify compliance with the Board Order and accepted standards of practice.

(b) Monitoring of status conditions for an impaired practitioner may include, but is not limited to, practitioner cooperation in providing releases permitting unrestricted access to records and other information to the extent permitted by law from any treatment facility, other treating practitioner, support group or other individual/facility involved in the education, treatment, monitoring or oversight of the practitioner, or maintained by a rehabilitation program for impaired practitioners. If bodily substance monitoring has been ordered, the practitioner shall fully cooperate by responding to a demand for breath, blood, urine or other sample in a timely manner and providing the designated sample.
