IN THE MATTER OF THE LICENSE OF

JOHN CARL ROBERTS, D.O.
License No. MB27521

TO PRACTICE MEDICINE AND SURGERY
IN THE STATE OF NEW JERSEY

Administrative Action

CONSENT ORDER OF
SUSPENSION

This matter was opened to the New Jersey State Board of Medical Examiners ("Board") upon receipt of information revealing that the license of John Roberts, D.O. ("Respondent") to practice medicine in the state of Indiana has been suspended indefinitely. The Board makes the following findings of fact and conclusions of law:

1. Respondent, John Carl Roberts, D.O., License No. MB27521, is a physician licensed in the State of New Jersey and has been licensed at all times relevant hereto.
2. By Order filed on October 30, 2007, the Medical Licensing Board of Indiana indefinitely suspended the respondent's medical license following an administrative hearing and

CERTIFIED TRUE COPY

based upon the finding that Respondent's inappropriate sexual relationship with patient T.M. and his admitted inability to practice medicine due to mental or physical ability constituted violations of Indiana law and regulations as follows:

a. Respondent engaged in sexual contact with a patient under his care or has used the respondent-patient relationship to solicit sexual contact with a patient under his care when the relationship was very unequal due to the physical and mental condition of the patient in violation of IND. CODE § 25-1-9-4(a)(11).

b. Respondent engaged in a course of lewd or immoral conduct in connection with the delivery of services to the public in violation of IND. CODE § 25-1-9-4(a)(5).

c. Respondent was unfit to practice due to professional incompetence that may include undertaking professional activities for which the respondent was not qualified by training or experience to undertake in violation of IND CODE § 25-1-9-4(a)(4)(A).

d. Respondent was unfit to practice due to mental or physical ability in violation of IND CODE § 25-1-9-4(a)(4)(C).

e. Respondent prescribed or administered a drug for other than generally accepted therapeutic purposes in violation of 844 IAC 4-6-10(3).

3. The Indiana Order provides that Respondent may apply for reinstatement after a period of seven years provided that he has met the following requirements:

a. Provide Indiana Board with current evaluation by a board approved psychologist with knowledge of boundary issues.

b. Provide Indiana Board with proof that Respondent has taken and passed the Center for Personalized Education ("CPEP") or similar training and complied with their recommendations, if any.

c. Submit to a "Gentle Path" evaluation at Pine Grove Behavioral Health and Addiction Services, and provide to the Board proof of evaluation, along with any treatment provided by Pine Grove Behavioral Health and Addiction Services.

d. Provide Board with a recommendation from an Indiana Board certified physician,

testifying to the fact that the Respondent is able to treat and care for patients with reasonable skill and safety.

- e. Provide Board with a current evaluation by a board approved clinical neuropsychologist with regard to language/auditory processing as it relates to the effective and safe performance of the practice of medicine.
- f. Pay costs in the amount of \$166.

4. The above disciplinary action taken by the sister State of Indiana provides grounds to take disciplinary action against Respondent's license to practice medicine and surgery in New Jersey pursuant to N.J.S.A. 45:1-21 (g), in that Respondent has had his authority to engage in the activity regulated by the Board suspended by another state for reasons consistent with N.J.S.A. 45:1-21 and also pursuant to N.J.S.A. 45:1-21 (e), in that, Respondent has engaged in professional misconduct.

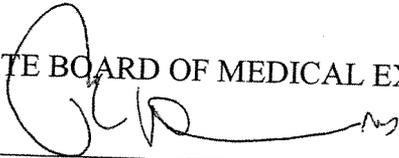

Based upon the above information and findings, and it appearing that Respondent wishes to resolve this matter without formal proceedings, and having waived any right to a hearing, and for other good cause shown.

**ACCORDINGLY IT IS ON THIS 15TH DAY OF OCTOBER, 2008
ORDERED THAT:**

1. The license of John Carl Roberts, D.O., to practice medicine and surgery in the State of New Jersey is hereby suspended until such time as he holds an unrestricted license to practice medicine in the State of Indiana.
2. In the event that Respondent seeks reinstatement of his New Jersey medical license at any time in the future, this Order shall require Respondent to appear before the Board, or a Committee thereof, to demonstrate fitness to practice medicine and that he has satisfied all

the terms and conditions of the Indiana Order, and show proof that he holds an active
unrestricted license to practice medicine in the State of Indiana.

**DIRECTIVES APPLICABLE TO ANY MEDICAL BOARD LICENSEE
WHO IS DISCIPLINED OR WHOSE SURRENDER OF LICENSURE
HAS BEEN ACCEPTED**

APPROVED BY THE BOARD ON MAY 10, 2000

All licensees who are the subject of a disciplinary order of the Board are required to provide the information required on the Addendum to these Directives. The information provided will be maintained separately and will not be part of the public document filed with the Board. Failure to provide the information required may result in further disciplinary action for failing to cooperate with the Board, as required by N.J.A.C. 13:45C-1 et seq. Paragraphs 1 through 4 below shall apply when a license is suspended or revoked or permanently surrendered, with or without prejudice. Paragraph 5 applies to licensees who are the subject of an order which, while permitting continued practice, contains a probation or monitoring requirement.

1. Document Return and Agency Notification

The licensee shall promptly forward to the Board office at Post Office Box 183, 140 East Front Street, 2nd floor, Trenton, New Jersey 08625-0183, the original license, current biennial registration and, if applicable, the original CDS registration. In addition, if the licensee holds a Drug Enforcement Agency (DEA) registration, he or she shall promptly advise the DEA of the licensure action. (With respect to suspensions of a finite term, at the conclusion of the term, the licensee may contact the Board office for the return of the documents previously surrendered to the Board. In addition, at the conclusion of the term, the licensee should contact the DEA to advise of the resumption of practice and to ascertain the impact of that change upon his/her DEA registration.)

2. Practice Cessation

The licensee shall cease and desist from engaging in the practice of medicine in this State. This prohibition not only bars a licensee from rendering professional services, but also from providing an opinion as to professional practice or its application, or representing him/herself as being eligible to practice. (Although the licensee need not affirmatively advise patients or others of the revocation, suspension or surrender, the licensee must truthfully disclose his/her licensure status in response to inquiry.) The disciplined licensee is also prohibited from occupying, sharing or using office space in which another licensee provides health care services. The disciplined licensee may contract for, accept payment from another licensee for or rent at fair market value office premises and/or equipment. In no case may the disciplined licensee authorize, allow or condone the use of his/her provider number by any health care practice or any other licensee or health care provider. (In situations where the licensee has been suspended for less than one year, the licensee may accept payment from another professional who is using his/her office during the period that the licensee is suspended, for the payment of salaries for office staff employed at the time of the Board action.)

A licensee whose license has been revoked, suspended for one (1) year or more or permanently surrendered must remove signs and take affirmative action to stop advertisements by which his/her eligibility to practice is represented. The licensee must also take steps to remove his/her name from professional listings, telephone directories, professional stationery, or billings. If the licensee's name is utilized in a group practice title, it shall be deleted. Prescription pads bearing the licensee's name shall be destroyed. A destruction report form obtained from the Office of Drug Control (973-504-6558) must be filed. If no other licensee is providing services at the location, all medications must be removed and returned to the manufacturer, if possible, destroyed or safeguarded. (In situations where a license has been suspended for less than one year, prescription pads and medications need not be destroyed but must be secured in a locked place for safekeeping.)

3. Practice Income Prohibitions/Divestiture of Equity Interest in Professional Service Corporations and Limited Liability Companies

A licensee shall not charge, receive or share in any fee for professional services rendered by him/herself or others while barred from engaging in the professional practice. The licensee may be compensated for the reasonable value of services lawfully rendered and disbursements incurred on a patient's behalf prior to the effective date of the Board action.

A licensee who is a shareholder in a professional service corporation organized to engage in the professional practice, whose license is revoked, surrendered or suspended for a term of one (1) year or more shall be deemed to be disqualified from the practice within the meaning of the Professional Service Corporation Act. (N.J.S.A. 14A:17-11). A disqualified licensee shall divest him/herself of all financial interest in the professional service corporation pursuant to N.J.S.A. 14A:17-13(c). A licensee who is a member of a limited liability company organized pursuant to N.J.S.A. 42:1-44, shall divest him/herself of all financial interest. Such divestiture shall occur within 90 days following the the entry of the Order rendering the licensee disqualified to participate in the applicable form of ownership. Upon divestiture, a licensee shall forward to the Board a copy of documentation forwarded to the Secretary of State, Commercial Reporting Division, demonstrating that the interest has been terminated. If the licensee is the sole shareholder in a professional service corporation, the corporation must be dissolved within 90 days of the licensee's disqualification.

4. Medical Records

If, as a result of the Board's action, a practice is closed or transferred to another location, the licensee shall ensure that during the three (3) month period following the effective date of the disciplinary order, a message will be delivered to patients calling the former office premises, advising where records may be obtained. The message should inform patients of the names and telephone numbers of the licensee (or his/her attorney) assuming custody of the records. The same information shall also be disseminated by means of a notice to be published at least once per month for three (3) months in a newspaper of

general circulation in the geographic vicinity in which the practice was conducted. At the end of the three month period, the licensee shall file with the Board the name and telephone number of the contact person who will have access to medical records of former patients. Any change in that individual or his/her telephone number shall be promptly reported to the Board. When a patient or his/her representative requests a copy of his/her medical record or asks that record be forwarded to another health care provider, the licensee shall promptly provide the record without charge to the patient.

5. Probation/Monitoring Conditions

With respect to any licensee who is the subject of any Order imposing a probation or monitoring requirement or a stay of an active suspension, in whole or in part, which is conditioned upon compliance with a probation or monitoring requirement, the licensee shall fully cooperate with the Board and its designated representatives, including the Enforcement Bureau of the Division of Consumer Affairs, in ongoing monitoring of the licensee's status and practice. Such monitoring shall be at the expense of the disciplined practitioner.

(a) Monitoring of practice conditions may include, but is not limited to, inspection of the professional premises and equipment, and inspection and copying of patient records (confidentiality of patient identity shall be protected by the Board) to verify compliance with the Board Order and accepted standards of practice.

(b) Monitoring of status conditions for an impaired practitioner may include, but is not limited to, practitioner cooperation in providing releases permitting unrestricted access to records and other information to the extent permitted by law from any treatment facility, other treating practitioner, support group or other individual/facility involved in the education, treatment, monitoring or oversight of the practitioner, or maintained by a rehabilitation program for impaired practitioners. If bodily substance monitoring has been ordered, the practitioner shall fully cooperate by responding to a demand for breath, blood, urine or other sample in a timely manner and providing the designated sample.
