DIVISION OF CONSUMER AFFAIRS
BOARD OF MEDICAL EXAMINERS

IN THE MATTER OF THE LICENSE OF

ANDE L. KARIMU, M.D.
License No. MA72089

TO PRACTICE MEDICINE AND SURGERY
IN THE STATE OF NEW JERSEY

Administrative Action

FINAL ORDER
OF DISCIPLINE

This matter was opened to the New Jersey State Board of Medical Examiners upon receipt of information which the Board has reviewed and on which the following preliminary findings of fact and conclusions of law are made;

FINDINGS OF FACT

1. Respondent, Ande L. Karimu, M.D., (hereafter "Respondent") License No. MA72089, is a physician licensed in the State of New Jersey and has been licensed at all times relevant hereto.

2. On or about December 12, 2007, the Respondent entered into a Consent Agreement and Order with the New York State Board for Professional Medical Conduct. More specifically, the Agreed Order provides:

CERTIFIED TRUE COPY

I shall refrain from the practice of medicine in New York State until the expiration of my limited license in December, 2007. I agreed that thereafter, I shall not seek to become licensed to practice medicine in New York State in the future.

3. The Consent Agreement and Order was based on false attestations the Respondent made on the Application [for] Medical Staff Appointment and Clinical Privileges Syracuse Hospital to SUNY University Hospital, 750 East Adams Street, Syracuse, New York 13210. The application was submitted and signed by the Respondent on August 5, 2005 as being "complete, true and accurate to his/her knowledge and belief.

4. Respondent in response to Question VIII stated that his Post Graduate Education included St. Michael's Medical Center, Seton Hall University, Newark, NJ during the years 1998-2001. In fact, Respondent's second year of training had been at the University of Cincinnati Hospitals in Cincinnati, Ohio, in 1998-1999, for which year Respondent received no academic credit. Thus, Respondent's factual representation was not true or accurate.

5. Respondent on the application, answered "no" to Question XX, subpart 3, which states:

Are you now or were you subject to- 'limitation, suspension, probation...of training...at any hospital or health care related institution?

Respondent had been placed on probation during the last four months of his PGY-2 year of training at the University of Cincinnati Hospitals in Cincinnati, Ohio, in 1998-1999, and for which year Respondent received no academic credit.

6. Respondent did not contest the Specification of Misconduct and [violation of Section 2805-k of the Public Health Law].

CONCLUSION OF LAW

The above disciplinary action taken by the sister state of New York provides grounds to take disciplinary action against Respondent's license to practice medicine and surgery in New Jersey pursuant to N.J.S.A. 45:1-21(g), (e) professional misconduct and that Respondent has agreed to refrain from the practice of medicine until expiration of his limited license in another state for conduct which is a basis for discipline in New Jersey. Respondent's agreed upon penalty is tantamount to a suspension or revocation.

DISCUSSION ON FINALIZATION

Based on the foregoing findings and conclusions, a Provisional Order of Discipline ("POD") was entered by this Board on October 16, 2009 and served upon Respondent. The POD was subject to finalization by the Board at 5:00 p.m. on the 30th business day following entry unless Respondent requested a modification or dismissal of the stated Findings of Fact or Conclusions of Law by submitting a written request for modification or dismissal setting forth in writing any and all reasons why said findings and conclusions should be modified or dismissed and submitting any and all documents or other written evidence supporting Respondent's request for consideration and reasons therefor.

Respondent submitted a response dated November 7, 2009 explaining that the inclusion of the information regarding Seton Hall 1998-2001 on the application for privileges at SUNY was an error and that he "incorrectly" stated that he was at Seton Hall for this period in time. Respondent also stated that it was his understanding that the New York action was that he allowed his license to lapse and that he would not seek to renew it in the future. Respondent also alleged that he brought this matter to the attention of the Board in 2007 when he renewed his license in New Jersey. He requested that he be permitted to transfer to reduced fee category after 10 years or not to renew his license. Thereafter, the Attorney General filed a reply dated July 12, 2010 recommending that the Board enter a Final Order of Discipline against Respondent because the Respondent's explanation that his

actions were in error did not mitigate that the New York Board took disciplinary action against him for actions constituting professional misconduct.

The submissions of Respondent and Attorney General were reviewed by the Board and the Board determined that further proceedings were unnecessary and that no material discrepancies have been raised. The Board was not persuaded that the Respondent's submission merited further consideration as he did not dispute the Findings of Fact or Conclusions of Law set forth in the POD.

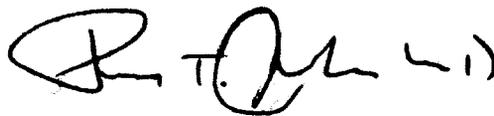

ACCORDINGLY, IT IS on this 3rd day of June, 2011,
ORDERED THAT:

1. Respondent's license to practice medicine and surgery in the State of New Jersey is suspended until such time as Respondent's license to practice medicine in the State of New York is fully reinstated without any restrictions.

2. Prior to the Board entertaining an application for reinstatement, Respondent shall be required to appear before the Board or a committee thereof, to demonstrate fitness to resume practice, to show that he has satisfied all requirements of the New York Board. Any practice in this State prior to said appearance shall constitute grounds for the charge of unlicensed practice. In

addition, the Board reserves the right to place restrictions on Respondent's practice should his license be reinstated.

**DIRECTIVES APPLICABLE TO ANY MEDICAL BOARD LICENSEE
WHO IS DISCIPLINED OR WHOSE SURRENDER OF LICENSURE
HAS BEEN ACCEPTED**

APPROVED BY THE BOARD ON MAY 10, 2000

All licensees who are the subject of a disciplinary order of the Board are required to provide the information required on the Addendum to these Directives. The information provided will be maintained separately and will not be part of the public document filed with the Board. Failure to provide the information required may result in further disciplinary action for failing to cooperate with the Board, as required by N.J.A.C. 13:45C-1 et seq. Paragraphs 1 through 4 below shall apply when a license is suspended or revoked or permanently surrendered, with or without prejudice. Paragraph 5 applies to licensees who are the subject of an order which, while permitting continued practice, contains a probation or monitoring requirement.

1. Document Return and Agency Notification

The licensee shall promptly forward to the Board office at Post Office Box 183, 140 East Front Street, 2nd floor, Trenton, New Jersey 08625-0183, the original license, current biennial registration and, if applicable, the original CDS registration. In addition, if the licensee holds a Drug Enforcement Agency (DEA) registration, he or she shall promptly advise the DEA of the licensure action. (With respect to suspensions of a finite term, at the conclusion of the term, the licensee may contact the Board office for the return of the documents previously surrendered to the Board. In addition, at the conclusion of the term, the licensee should contact the DEA to advise of the resumption of practice and to ascertain the impact of that change upon his/her DEA registration.)

2. Practice Cessation

The licensee shall cease and desist from engaging in the practice of medicine in this State. This prohibition not only bars a licensee from rendering professional services, but also from providing an opinion as to professional practice or its application, or representing him/herself as being eligible to practice. (Although the licensee need not affirmatively advise patients or others of the revocation, suspension or surrender, the licensee must truthfully disclose his/her licensure status in response to inquiry.) The disciplined licensee is also prohibited from occupying, sharing or using office space in which another licensee provides health care services. The disciplined licensee may contract for, accept payment from another licensee for or rent at fair market value office premises and/or equipment. In no case may the disciplined licensee authorize, allow or condone the use of his/her provider number by any health care practice or any other licensee or health care provider. (In situations where the licensee has been suspended for less than one year, the licensee may accept payment from another professional who is using his/her office during the period that the licensee is suspended, for the payment of salaries for office staff employed at the time of the Board action.)

A licensee whose license has been revoked, suspended for one (1) year or more or permanently surrendered must remove signs and take affirmative action to stop advertisements by which his/her eligibility to practice is represented. The licensee must also take steps to remove his/her name from professional listings, telephone directories, professional stationery, or billings. If the licensee's name is utilized in a group practice title, it shall be deleted. Prescription pads bearing the licensee's name shall be destroyed. A destruction report form obtained from the Office of Drug Control (973-504-6558) must be filed. If no other licensee is providing services at the location, all medications must be removed and returned to the manufacturer, if possible, destroyed or safeguarded. (In situations where a license has been suspended for less than one year, prescription pads and medications need not be destroyed but must be secured in a locked place for safekeeping.)

3. Practice Income Prohibitions/Divestiture of Equity Interest in Professional Service Corporations and Limited Liability Companies

A licensee shall not charge, receive or share in any fee for professional services rendered by him/herself or others while barred from engaging in the professional practice. The licensee may be compensated for the reasonable value of services lawfully rendered and disbursements incurred on a patient's behalf prior to the effective date of the Board action.

A licensee who is a shareholder in a professional service corporation organized to engage in the professional practice, whose license is revoked, surrendered or suspended for a term of one (1) year or more shall be deemed to be disqualified from the practice within the meaning of the Professional Service Corporation Act. (N.J.S.A. 14A:17-11). A disqualified licensee shall divest him/herself of all financial interest in the professional service corporation pursuant to N.J.S.A. 14A:17-13(c). A licensee who is a member of a limited liability company organized pursuant to N.J.S.A. 42:1-44, shall divest him/herself of all financial interest. Such divestiture shall occur within 90 days following the the entry of the Order rendering the licensee disqualified to participate in the applicable form of ownership. Upon divestiture, a licensee shall forward to the Board a copy of documentation forwarded to the Secretary of State, Commercial Reporting Division, demonstrating that the interest has been terminated. If the licensee is the sole shareholder in a professional service corporation, the corporation must be dissolved within 90 days of the licensee's disqualification.

4. Medical Records

If, as a result of the Board's action, a practice is closed or transferred to another location, the licensee shall ensure that during the three (3) month period following the effective date of the disciplinary order, a message will be delivered to patients calling the former office premises, advising where records may be obtained. The message should inform patients of the names and telephone numbers of the licensee (or his/her attorney) assuming custody of the records. The same information shall also be disseminated by means of a notice to be published at least once per month for three (3) months in a newspaper of

general circulation in the geographic vicinity in which the practice was conducted. At the end of the three month period, the licensee shall file with the Board the name and telephone number of the contact person who will have access to medical records of former patients. Any change in that individual or his/her telephone number shall be promptly reported to the Board. When a patient or his/her representative requests a copy of his/her medical record or asks that record be forwarded to another health care provider, the licensee shall promptly provide the record without charge to the patient.

5. Probation/Monitoring Conditions

With respect to any licensee who is the subject of any Order imposing a probation or monitoring requirement or a stay of an active suspension, in whole or in part, which is conditioned upon compliance with a probation or monitoring requirement, the licensee shall fully cooperate with the Board and its designated representatives, including the Enforcement Bureau of the Division of Consumer Affairs, in ongoing monitoring of the licensee's status and practice. Such monitoring shall be at the expense of the disciplined practitioner.

(a) Monitoring of practice conditions may include, but is not limited to, inspection of the professional premises and equipment, and inspection and copying of patient records (confidentiality of patient identity shall be protected by the Board) to verify compliance with the Board Order and accepted standards of practice.

(b) Monitoring of status conditions for an impaired practitioner may include, but is not limited to, practitioner cooperation in providing releases permitting unrestricted access to records and other information to the extent permitted by law from any treatment facility, other treating practitioner, support group or other individual/facility involved in the education, treatment, monitoring or oversight of the practitioner, or maintained by a rehabilitation program for impaired practitioners. If bodily substance monitoring has been ordered, the practitioner shall fully cooperate by responding to a demand for breath, blood, urine or other sample in a timely manner and providing the designated sample.
