

dentistry in this State, and will forward his biennial registration, CDS registration, DEA registration, and all prescription pads bearing his name to the State Board of Dentistry. Respondent has agreed to the voluntary surrender of his license to practice dentistry in the State of New Jersey without prejudice and in accordance with the terms of this Order. The Board finds the terms of this consent order to be adequately protective of the public health, safety and welfare:

IT IS, THEREFORE, ON THIS 11th DAY OF July 2012
ORDERED THAT:

1. Respondent, Kenneth Avery, D.M.D., shall immediately surrender his license and cease to practice dentistry in this State of New Jersey pending further order of the Board.
2. Respondent shall return his original New Jersey license to the State of Board of Dentistry and by forwarding it to Jonathan Eisenmenger, Executive Director, P.O. Box 45005, 124 Halsey Street, Sixth Floor, Newark, New Jersey 07101, contemporaneously with the signing of this Order. Simultaneously, respondent shall surrender his biennial registration, CDS registration, DEA registration, and all prescription pads bearing his name to the Board.
3. Respondent shall remain enrolled in and participate with the PAP and shall comply with its recommendations for treatment, including but not limited to:

(a) monthly face-to-face contact with representatives from that program for the first six months following entry of this order, and thereafter at the discretion of the Executive Medical Director of the PAP;

(b) attendance at support groups, NA or AA, at a minimum of three times per week;

(c) random urine monitoring, a minimum of twice weekly for the first month of licensure, followed by a minimum of weekly screens for the subsequent two months. Thereafter, respondent shall be screened on a random basis a minimum of twice monthly, unless more frequent screens are directed by the Executive Medical Director of the PAP; and

(d) counseling as recommended by the Executive Medical Director of the PAP.

4. If respondent discontinues participation with the PAP or fails to comply with the conditions imposed by the program as outlined in this consent order without obtaining approval of the Board and the PAP, he shall be deemed in violation of this Order. After the period specified in this order, reduction in urine monitoring or the number of required face-to-face meetings with the PAP shall be at the discretion of the Executive Medical Director of the Program with notification to the Executive Director of the State Board of Dentistry.

5. Respondent shall abstain from the use of alcohol and from all psychoactive substances, unless prescribed by a treating physician for a documented medical condition with prior notification to the Executive Medical Director of the PAP of the diagnosis and prescribed medications. In addition, respondent shall advise any and all treating physicians and/or dentists of his history of substance abuse.

6. The PAP shall submit quarterly reports, including urine results, to the Board regarding respondent's participation and compliance with all requirements of the PAP and this order. If respondent has a positive urine, misses an appointment without consent, or has a lapse or slip in his recovery, or if respondent terminates recommended counseling or his participation with the PAP, the PAP shall immediately inform the Board. For purposes of this paragraph, "immediately" shall mean reporting the information orally within 24 hours and following up with a written report within 48 hours.

7.(a) Any failure by respondent to submit or provide a urine sample within twenty-four (24) hours of a request will be deemed to be equivalent to a confirmed positive urine test. In the event respondent is unable to appear for a scheduled urine test or provide a urine sample due to illness or other impossibility, consent to waive that day's test must be secured from the PAP. Respondent shall notify the PAP if he will be out of the State for

any reason, so that the program may make a determination regarding alternate testing.

(b) Any urine test result showing creatinine levels below 20 mg/dL and a specific gravity below 1.003 shall create a rebuttable presumption of a confirmed positive urine test. Any such result shall be followed immediately by a confirming GC/MS test.

(c) Respondent shall familiarize himself with all foods, food additives or other products (such as poppy seeds) which may affect the validity of urine screens, be presumed to possess that knowledge, and shall refrain from the use of such substances. Ingestion of such substances shall not be an acceptable reason for a positive urine screen and/or failure to comply with the urine monitoring program.

(d) The PAP may, after notifying the Board, modify the frequency of testing or method of testing during the monitoring period.

8. Respondent shall provide any and all releases to any and all parties who are participating in a monitoring, treatment, or other program as outlined in this order, as may be required in order that all reports, records, and other pertinent information may be provided to the Board in a timely manner. Respondent agrees that any information received by the Board regarding respondent's

treatment or participation in a monitoring program may be used in connection with any proceedings pertaining to his license.

9. Prior to any restoration of his license, respondent shall demonstrate a minimum of six months of sobriety and compliance with all terms of this order. In connection with an application for reinstatement, and upon request of the Board, respondent shall:

a. Appear before the Board or a committee of the Board to discuss his fitness, competence and capacity to re-enter the practice of dentistry. At that time respondent shall be prepared to:

- 1). Propose his plans for future practice in New Jersey.
- 2). Provide the Board with evidence that he is capable of discharging the functions of a licensee in a manner consistent with the public's health, safety and welfare and that he is not then suffering from any impairment or limitation resulting from the use of any CDS or other substance, whether legal or illegal, which could affect his practice.
- 3). Provide the Board with reports from each and every mental health professional (including but not limited to psychologists, counselors, therapists, psychiatrists) who have participated in respondent's care and/or treatment during the period of time from his entry into treatment to his appearance.

- 4). Provide the Board with a report from the PAP detailing the nature and extent of his involvement with that entity, and its recommendation regarding the reinstatement of his license.
- 5). Provide the Board with a full account of his conduct during the intervening period of time from his entry into inpatient treatment to his appearance.
- 10. Entry of this Order is without prejudice to further action by this Board or other law enforcement entities resulting from respondent's conduct.
- 11. Respondent shall comply with the attached directives for dentists whose surrender of license has been accepted by the Board, which are incorporate herein by reference.
- 12. Nothing in this order shall be deemed to preclude the Board from taking any action it deems appropriate, including the filing of a complaint and/or seeking a temporary suspension of respondent's license, should the Board's review of information cause it to determine that such action is warranted.

NEW JERSEY STATE BOARD OF DENTISTRY

By: Herbert B. Dolinsky, D.D.S.
Herbert B. Dolinsky, D.D.S.
President

I have read and understand this Consent Order and agree to be bound by its terms,
I consent to the entry of this Order.

Kenneth Avery DMD
Kenneth Avery, D.M.D.

Date 6/29/12

**DIRECTIVES APPLICABLE TO ANY DENTISTRY BOARD LICENSEE
WHO IS SUSPENDED, REVOKED OR WHOSE SURRENDER OF LICENSURE
HAS BEEN ACCEPTED**

A practitioner whose license is suspended or revoked or whose surrender of license has been accepted by the Board, shall conduct him/herself as follows:

1. Document Return and Agency Notification

The licensee shall promptly deliver to the Board office at 124 Halsey Street, 6th floor, Newark, New Jersey 07102, the original license and current biennial registration certificate, and if authorized to prescribe drugs, the current State and Federal Controlled Dangerous Substances Registration. With respect to suspensions of a finite term, at the conclusion of the term, the licensee may contact the Board office for the return of the documents previously surrendered to the Board.

2. Practice Cessation

The licensee shall cease and desist from engaging in the practice of dentistry in this State. This prohibition not only bars a licensee from rendering professional services, but also from providing an opinion as to professional practice or its application, or representing him/herself as being eligible to practice. Although the licensee need not affirmatively advise patients or others of the revocation, suspension or surrender, the licensee must truthfully disclose his/her licensure status in response to inquiry. The disciplined licensee is also prohibited from occupying, sharing or using office space in which another licensee of this Board provides health care services. Unless otherwise ordered by the Board, the disciplined licensee may contract for, accept payment from another licensee for or rent at fair market value office premises and/or equipment. In no case may the disciplined licensee authorize, allow or condone the use of his/her provider number by the practice or any other licensee or health care provider. In situations where the licensee has been suspended for less than one year, the licensee may accept payment from another professional who is using his/her office during the period that the licensee is suspended, for the payment of salaries for office staff employed at the time of the Board action.

A licensee whose license has been revoked, suspended for one (1) year or more or permanently surrendered must remove signs and take affirmative action to stop advertisements by which his/her eligibility to practice is represented. The licensee must also take steps to remove his/her name from all prescription blanks and pads, professional listings, telephone directories, professional stationery, or billings. If the licensee's name

is utilized in a group practice title, it shall be deleted.

Prescription pads bearing the licensee's name shall be destroyed. A destruction report form shall be obtained from the Office of Drug Control (973-504-6558) and filed with that office. If no other licensee is providing services at the practice location, all medications must be removed and returned to the manufacturer (if possible), or destroyed or safeguarded. In situations where the licensee has been suspended for a period of less than one year, prescription pads and medications must be secured in a locked place for safekeeping.

3. Practice Income Prohibitions/Divestiture of Equity Interest in Professional Service Corporations

A licensee shall not charge, receive or share in any fee for professional services rendered by him/herself or others while barred from engaging in the professional practice. The licensee may be compensated for the reasonable value of services lawfully rendered and disbursements incurred on a patient's behalf prior to the effective date of the Board action.

A licensee whose license is revoked, surrendered or suspended for a term of one (1) year or more shall be deemed to be disqualified from the practice, and shall be required to comply with the requirements to divest him/herself of all financial interest in the professional practice pursuant to Board regulations contained in N.J.A.C. 13:30-8.21. Such divestiture shall occur within 90 days following the entry of the Board Order. Upon divestiture, a licensee shall forward to the Board a copy of documentation forwarded to the New Jersey Department of Treasury, Commercial Reporting Division, demonstrating that the interest has been terminated. If the licensee is the sole shareholder in a professional service corporation, the corporation must be dissolved within 90 days of the licensee's disqualification.

4. Patient Records

If, as a result of the Board's action, a practice is closed or transferred to another location, the licensee shall ensure that during the three (3) month period following the effective date of the disciplinary order, a message will be delivered to patients calling the former office premises, advising where records may be obtained. The message should inform patients of the names and telephone numbers of the licensee (or his/her attorney) assuming custody of the records. The same information shall also be disseminated by means of a notice to be published at least once per month for three (3) months in a newspaper of general circulation in the geographic vicinity in which the practice was conducted. At the end of the three month period, the licensee shall file with the Board the name and telephone number of the contact person who will have access to patient records of former patients. Any change in that individual or his/her telephone number shall be promptly reported to the Board. When a patient or his/her representative requests a copy of his/her patient record or asks that the record be forwarded to another health care provider, the licensee shall promptly provide the record without charge to the patient.

5. Probation/Monitoring Conditions

A disciplined practitioner whose active suspension of license has been stayed in full or in part, conditioned upon compliance with a probation or monitoring program, shall fully cooperate with the Board or its designated representatives, including the Enforcement Bureau of the Division of Consumer Affairs, in ongoing monitoring of the licensee's status and practice. Such monitoring shall be at the expense of the disciplined practitioner.

(a.) Monitoring of practice conditions may include, but is not limited to, inspection of professional premises and equipment, and inspection and copying of patient records (confidentiality of patient identity shall be protected by the Board) to verify compliance with Board Order and accepted standards of practice.

(b.) Monitoring of status conditions for an impaired practitioner may include, but is not limited to, practitioner cooperation in providing releases permitting unrestricted access to records and other information to the extent permitted by law from any treatment facility, other treating practitioner, support group or other individual or facility involved in the education, treatment, monitoring or oversight of the practitioner, or maintained by the rehabilitation program for impaired practitioners. If bodily substance monitoring has been ordered, the practitioner shall fully cooperate by responding to a demand for breath, blood, urine or other sample in a timely manner and by providing the designated sample.

6. Reports of Reimbursement

A disciplined practitioner shall promptly report to the Board his/her compliance with each directive requiring monies to be reimbursed to patients to other parties or third party payors or to any Court.

7. Report of Changes of Address

A disciplined practitioner shall notify the Board office in writing within ten (10) days of change of address.

**NOTICE OF REPORTING PRACTICES OF BOARD
REGARDING DISCIPLINARY ACTIONS**

Pursuant to N.J.S.A. 52:14B-3(3), all orders of the New Jersey State Board of Dentistry are available for public inspection. Should any inquiry be made concerning the status of a licensee, the inquirer will be informed of the existence of the order and a copy will be provided if requested. All evidentiary hearings, proceedings on motions or other applications which are conducted as public hearings and the record thereof, including the transcript and documents marked in evidence, are available for public inspection upon request.

Pursuant to Public Law 101-191, the Health Insurance Portability and Accountability Act, the Board is obligated to report to the Healthcare Integrity and Protection Data Bank any adverse action relating to a dentist:

- (1) Which revokes or suspends (or otherwise restricts) a license; or
- (2) Which censures, reprimands or places on probation, or restricts the right to apply or renew a license; or
- (3) Under which a license is surrendered.

In accordance with an agreement with the American Association of Dental Examiners, a report of all disciplinary orders is provided to that organization on a monthly basis.

Within the month following entry of an order, a summary of the order may appear on the public agenda for the monthly Board meeting and is forwarded to those members of the public requesting a copy. In addition, the same summary will appear in the minutes of that Board meeting, which are also made available to those requesting a copy.

On a periodic basis the Board disseminates to its licensees a newsletter which includes a brief description of all of the orders entered by the Board. In addition, the same description may appear on the Internet Website of the Division of Consumer Affairs.

From time to time, the Press Office of the Division of Consumer Affairs may issue releases including the summaries of the content of public orders.

Nothing herein is intended in any way to limit the Board, the Division or the Attorney General from disclosing any public document.
