STATE OF NEW JERSEY
DEPARTMENT OF LAW AND PUBLIC SAFETY
DIVISION OF CONSUMER AFFAIRS
STATE BOARD OF PHARMACY

IN THE MATTER OF THE SUSPENSION
OR REVOCATION OF THE LICENSE OF

Nicole Cifaloglio, R.Ph.
Lic. No. 28RI02994200

TO PRACTICE PHARMACY
IN THE STATE OF NEW JERSEY

CONSENT ORDER

This matter was opened to the New Jersey State Board of Pharmacy (the "Board") upon receipt of a letter dated February 17, 2012 from the Professional Assistance Program ("PAP") requesting that the Board modify the Consent Order filed on November 19, 2009 (amended by Consent Order dated January 6, 2011) in the matter of Nicole Cifaloglio, R.Ph. ("Respondent"). Among other things, pursuant to the 2011 Consent Order, Respondent agreed to participate in random urine monitoring under the supervision of the PAP on an unannounced basis,

but no less than once per week. Due to the Respondent's years of documented sobriety and compliance with the Consent Order, including consistently negative urine screen results for any non-prescribed psychoactive substances, PAP has requested that the Board consider a reduction in Respondent's urine screens from once per week to twice per month for a period of six months and thereafter once per month.

The Board having reviewed PAP's request on behalf of Respondent, the parties having agreed to the resolution of this matter without further formal proceedings, and the Respondent having agreed and given her voluntary consent to the within order and waiving any right to a hearing in this matter, and the Board finding the within disposition adequately protective of the public's health, safety, and welfare, and other good cause having been shown;

IT IS, therefore on this 30th day of MAY, 2012

ORDERED THAT:

1. All the terms of the Consent Order filed on November 19, 2009 and amended Consent Order filed on January 6, 2011 are incorporated as if fully set forth herein and remain in effect, except that:

a. Respondent shall undergo random urine monitoring under the supervision of the PAP on an unannounced basis, at a frequency to be determined by the PAP, but no less than twice per month for the first six months following the filing date of this Order. Subsequent

reductions in the frequency of urine screens shall be at the direction of the executive medical director of the PAP consistent with Respondent's duration in recovery with prior notification to the State Board of Pharmacy, but in no event less than once per month. All test results shall be provided in the first instance directly to the PAP and any positive result shall be reported immediately by the PAP to the Executive Director of the Board.

NEW JERSEY STATE BOARD OF PHARMACY

By: Edward G. McGinley
Edward G. McGinley, R.Ph.
Board President

I have read and understood the within Order and agree to be bound by its terms.

Nicole A. Cifaloglio
Nicole Cifaloglio, R.Ph.

Agreed as to the monitoring and reporting requirements of this Order and the Order dated November 19, 2009 on behalf of the Professional Assistance Program.
