

III. COMMITTEE REPORTS:

1. Credentials:

- Dr. William J. Marcinczuk - Application for reinstatement of license. Request to have a license so he can start a business and supervise hygienists. He reports that he is physically unable to perform any dental procedures.

The committee noted that Dr. Marcinczuk does not have the required continuing education to reinstate the license. The Board determined that an active license could be issued if he agrees to limit his activities to non clinical dentistry and maintain the continuing education requirements for an active license. The Board noted the business model proposed in his letter is not acceptable to the Board as dentists supervising

hygienists must be able to provide treatment if necessary.

- Dr. Marcus Liu - Application for a dental license. The committee recommends approval of this application with a letter of advice regarding communications with the Board.
