The Board reviewed the Fire Alarm, Burglar Alarm and Locksmith Advisory Committee proposed regulation to decrease the business licensee fee for big businesses. The comment period ended August 3, 2007 and no comments have been received.

Motion made by Mr. James H. Flaherty and seconded by Mr. Richard T. Aicher, Jr., and unanimously passed, to adopt the proposed regulation to decrease the business license fee for big businesses.

The Board reviewed an E-Mail dated August 2, 2007, received from Gina Gizzi stating that the licensing examination has a 95% failure rate. Ms. Gizzi also stated that the examination does not accurately measure knowledge and skills. Ms. Gizzi further stated that she is not suggesting that the examination be easy; however, it should be relevant to ones work and obtainable through good experience and education.

Mr. Flaherty stated that this examination was not developed by the Board; it is a nationally developed electrical contractors licensing examination.

Mrs. Cook stated that we have an increasing number of candidates taking the test and the passing rates have increased.

Mr. Cantalupo stated that many of the applicants are qualified; unfortunately they find it hard to take an examination.

Mr. Schooley stated that the Board utilizes the services of an international testing service; the test questions are derived from experts in the electrical contracting field. The test questions are based on the knowledge of the electrical contractor's daily function. The Statute requires the testing of all phases of electrical contracting.

Mr. Malec requested that Thomson Prometric provide the Board with the number of candidates who have passed all three parts of the examination the first time; number of candidates who have passed all three parts of the examination the second time; and the number of candidates who have passed all three parts of the examination the third time.

The Board reviewed a Civil Action Final Order and Judgment filed on June 26, 2007 ordering that Roy Leeflang, Unlicensed, individually, and Know How Construction Company, Inc., are permanently restrained and enjoined from offering to engage in or engaging in the practice of electrical contracting or plumbing contracting in the State of New Jersey unless and until they are licensed to do so; are permanently enjoined from the employment of deceptive business practices, misrepresentation and/or false pretense, whereby defendants purport to subcontract electrical work or plumbing work to a licensed electrical contractor or plumbing contractor, obtaining thereby a permit from the municipality to perform electrical work or plumbing work, and then have unlicensed persons unaffiliated with the licensed electrical contractor or plumbing contractor perform the actual electrical and/or plumbing work without the supervision of a licensed electrical contractor or master plumber; pay restitution in the amount of \$7,012,65 to Linda Montgomery; pay a civil penalty in the amount of \$2,500.00; pay attorney fees in the amount of \$10,261.00; and pay costs in the amount of \$1,662.00.

Signed cease and desist agreements were received from Robert Smith, Dover, Delaware and Daniel W. Anderson, Tinton Falls, New Jersey.

The Board accepted the signed cease and desist agreements.

Mr. Malec advised the Board that licensees who have chosen "inactive" status for their license are not being provided with a certificate of completion from the instructor because the licensee does not have a current identification card.

Mr. Malec also stated that the continuing education sponsors should be notified that an "inactive" licensee is not provided with a certificate; however, upon the request of the licensee, the Board can provide a letter which reflects that the license has been placed in an "inactive" status. Such a letter would be an acceptable form of identification.

The Board requested that all sponsors be notified in writing of same.

Mr. Gianella stated that in regards to the Board's discussion concerning the examination, individuals who only perform residential work should not have take all three parts of the examination.

Mr. McCullough stated that the Statute makes no such provision; an applicant would have to take and pass all three parts of the examination in order to become licensed.

Mr. Cantalupo stated that the Board cannot make such a change; this would have to be done through legislation.

The Board reviewed applications for the written examination to be administered by Thomson Prometric. Fifteen (15) applications were approved.

Motion made by Mr. Joseph F. Cantalupo and seconded by Mr. Mitchell R. Malec, and unanimously passed, that the Board go into Executive Closed Session to consider and to review consumer complaints, investigative reports and other information received pursuant to the Board's investigative authority in order to determine whether violations of the law, including Board regulations have occurred. The results of the deliberations will be made

known when and if the Board determines to initiate disciplinary action or other law enforcement action.

Meeting adjourned at 1:30 P.M.

A Business Meeting is scheduled for Wednesday, October 3, 2007, at 9:00 A.M.

Respectfully submitted,

Barbara A. Cook
Executive Director
