Board Actions

Listed below are all the orders issued by the Board of Nursing during the month. This includes all Final, Interim Temporary Suspension, Probation, Consent and Reinstatement Orders.

In the instances where a license has been surrendered, suspended, or revoked, the licensee is not permitted to practice nursing.

In the instances where a licensee is on a 'stayed' suspension or probation, the licensee is permitted to practice nursing within certain conditions or restrictions. License reinstatements are not automatic.

Please do not use the information on the list below to verify licensure status. Before taking any employment action based upon this list, it is imperative that you verify the information by calling the board at **(973) 504-6457**.

When a license is suspended, revoked or surrendered, we ask the nurse to return the physical license to the Board office. However, sometimes this is not received. Therefore when verifying a license, please note the expiration date or evidence of tampering. If an employer chooses to make a photocopy of a license for personnel files, it is important that 'void' is written across the face of the license.
