GAME DESCRIPTION

The Yahtzee game is a single player non-competitive arcade redemption game where the player tries to create a combination of five (5) dice by popping balls in a playfield. The player gets three (3) pops to obtain the best possible winning combination. The Yahtzee game play field consists of five (5) balls and a video screen.

The player uses a pop button located on the control panel to pop the balls in the playfield. Each ball represents a Yahtzee die on the video screen. The player then uses the five (5) buttons located on the control panel to hold one (1) to all five (5) balls to increase the chance of a win. Once the balls have been selected, the player pushes the pop button for the final outcome. All winners are awarded tickets for prize redemption based on an award table of winning combinations and are displayed to the player on the video screen.
