13:34C-6.3 CLINICAL SUPERVISION OF A SUPERVISED PRACTICE FOR CERTIFIED ALCOHOL AND DRUG COUNSELORS

a) The following individuals may be qualified clinical supervisors of certified alcohol and drug counselors:

1) A New Jersey licensed clinical alcohol and drug counselor. Effective June 2, 2021, to be a qualified clinical supervisor, a New Jersey licensed clinical alcohol and drug counselor shall hold a current Certified Clinical Supervisor (CCS) certification from an ICRC member board.

i. A New Jersey licensed clinical alcohol and drug counselor who, prior to June 2, 2021, was engaging in clinical supervision and is unable, due to extenuating circumstances, to obtain the CCS certification by June 2, 2021, may apply for an extension. If the Committee determines that the licensee is unable to obtain the CCS certification due to
extenuating circumstances, the Committee shall grant the licensee an extension. Such
application shall be filed with the Committee at least 30 days prior to June 2, 2021;

2) A New Jersey licensed physician, certified by the American Society of Addiction Medicine
or a psychiatrist;

3) A New Jersey certified advanced practice nurse, licensed psychologist, licensed clinical
social worker, licensed marriage and family therapist, or licensed professional counselor,
who holds a current Certified Clinical Supervisor (CCS) certification from an ICRC
member board; and

4) A New Jersey licensed clinical alcohol and drug counselor who is also a New Jersey
certified advanced practice nurse, licensed psychologist, licensed clinical social worker,
licensed marriage and family therapist, or licensed professional counselor, is deemed a
qualified supervisor by the other respective professional licensing board, and who has
three years of clinical experience in alcohol and drug counseling.

i. The three years of clinical experience shall include hours earned as part of an
individual’s internship training. At least one year of the required experience shall be
obtained after holding a license as a clinical alcohol and drug counselor.

ii. If the other professional licensing board does not have specific statutory or regulatory
requirements to qualify a licensee to supervise clinical mental health services, the
Committee will, on a case-by-case basis, consider that dual-licensee’s supervisory
experience to determine whether to waive the CCS requirement.

b) Qualified clinical supervisors shall have a written agreement with certified alcohol and drug
counselors describing the planned hours of practice, supervision schedule, nature of work
assignments and other specifications that the supervisor reasonably deems appropriate to
the certified alcohol and drug counselor’s level of training.

c) Prior to the certified alcohol and drug counselor's provision of treatment services, the
qualified clinical supervisor shall obtain a written disclosure that the client has been informed
that the services are provided by a certified alcohol and drug counselor under the
supervision of a licensed professional as set forth in (a) above. This disclosure shall be kept
as part of the client record. If the disclosure is part of another document provided at client
orientation, the disclosure shall be clearly evident, understood and signed by the client. The
qualified clinical supervisor shall retain the responsibility for collecting fees from clients when
applicable.

d) The qualified clinical supervisor may require the co-signing of reports to outside agencies or
providers.
e) Qualified clinical supervisors shall inform the Committee of violations of this chapter, laws and code of ethics and the corrective action taken by the qualified clinical supervisor to remedy the situation and assure that it will not reoccur.

f) Qualified clinical supervisors who terminate their supervisory relationship with a certified alcohol and drug counselor shall retain the client records, arrange for appropriate termination of the counselor/client relationship and offer the client additional options for continuation of the treatment care.

g) If the reason for termination of the supervisory relationship with the certified alcohol and drug counselor involves the violation of this chapter, Federal or State laws or regulations affecting the profession or the current code of ethics, the qualified clinical supervisor shall report the reasons to the Committee with the certified alcohol and drug counselor's name and certificate number.

h) Qualified clinical supervisors shall retain a copy of the counselor's certificate of registration and current curriculum vitae for seven years.

i) Qualified clinical supervisors shall not supervise a certified alcohol and drug counselor with whom the supervisor has a relationship that may be inappropriate to the supervision and may compromise the objectivity of the supervisor or impair the professional judgment of the qualified clinical supervisor. Examples of inappropriate supervisory relationships include, but are not limited to, current clients, former clients within one-year period post-treatment, former spouses, relatives, sponsor/sponsee relationships in self-help groups, anyone with whom the supervisor is having a sexual relationship or has had a sexual relationship within the past 24 months. A qualified clinical supervisor shall not supervise a current student unless the supervisor is the faculty instructor in an academic training program.

j) Qualified clinical supervisors shall evaluate certified alcohol and drug counselors at least annually, emphasizing their strengths and shortcomings, as well as areas in which the certified alcohol and drug counselor should pursue additional knowledge and/or skill development. These evaluations shall be cosigned by both the qualified clinical supervisor and certified alcohol and drug counselor and copies shall be retained by both for seven years. Copies of these evaluations may be requested by the Committee.

k) Clinical supervision shall include at least 50 hours of face-to-face supervision per year, averaging one hour per week, with no more than 10 percent being real-time interactive video conferencing. Counselors with more than five years of experience as a certified alcohol and drug counselor may be supervised less frequently, but no less than two hours per month. This reduced supervision is at the discretion of the qualified clinical supervisor and is dependent upon the supervisor's style, techniques, policies and protocols, as well as the level of skill, training and caseload of the counselor.
l) All diagnoses shall be made by the qualified clinical supervisor and shall not be delegated to
a certified alcohol and drug counselor.

m) All qualified clinical supervisors of certified alcohol and drug counselors shall obtain
Committee approval prior to commencing the supervisory relationship with the certified
alcohol and drug counselor. A qualified clinical supervisor shall submit evidence, on forms
provided by the Committee, that he or she has satisfied all applicable requirements of this
subchapter.

13:34C-6.4 CLINICAL SUPERVISION OF AN AGENCY PRACTICE

a) The Committee shall accept clinical supervision requirements in agencies licensed by the
Department of Human Services, Division of Addiction Services, as substance abuse
treatment facilities as they relate to the clinical supervision of alcohol and drug counselors,
unless otherwise specified in this subchapter.

b) Supervised agency practice by a certified alcohol and drug counselor does not apply to
practice by that individual outside the licensed facility setting.

c) If the Committee is advised of inadequacies in the clinical supervision of certified alcohol and
drug counselors in a Department of Human Services, Division of Mental Health and
Addiction Services, (DMHAS) licensed substance abuse treatment facility, the Committee
shall notify the DMHAS of such inadequacies and may recommend to DMHAS a plan for
clinical supervision. If the inadequacies in supervision within an agency practice setting, as
defined in (a) above, are not resolved within three months of such notice, the agency
supervision exemption described herein shall be withdrawn and the rule for supervised
practice at N.J.A.C. 13:34C-6.3 shall be imposed upon subject certificate holders until such
time as the Committee determines that the inadequacies in supervision have been corrected.

d) For purposes of certified alcohol and drug counselor and licensed clinical alcohol and drug
counselor applications, the clinical director of the agency shall sign all supervisory forms
required pursuant to this subchapter.
b) This subchapter shall apply to all persons who are licensed or certified by the Committee.

c) Pursuant to N.J.S.A. 45:1-62, an alcohol and drug counselor must hold a license or certification, as applicable, issued by the Committee, if he or she:

1) Is located in New Jersey and provides alcohol and drug counseling to any client located in or out of New Jersey by means of telemedicine or telehealth; or

2) Is located outside of New Jersey and provides alcohol and drug counseling to any client located in New Jersey by means of telemedicine or telehealth.

d) Notwithstanding N.J.S.A. 45:1-62 and (c) above, a healthcare provider located in another state who consults with a licensee in New Jersey through the use of information and communications technologies, but does not direct a client's care, will not be considered as providing health care services to a client in New Jersey consistent with N.J.S.A. 45:2D-1 et seq., and will not be required to obtain licensure in New Jersey in order to provide such consultation.

e) Credentialed interns, as defined at N.J.A.C. 13:34C-6.1, who engage in telemedicine or telehealth shall do so consistent with P.L. 2017, c. 117 (N.J.S.A. 45:1-61 et seq.) and the rules of their respective licensing board.

consistent with in-person standards of care, the licensee shall not provide or supervise services through telemedicine or telehealth.

g) During and after the provision of alcohol and drug counseling through telemedicine or telehealth, a licensee shall provide his or her name, professional credentials, and contact information to the client. Such contact information shall enable the client to contact the
licensee for at least 72 hours following the provision of services, or for a longer period if warranted by the client's circumstances and accepted standards of care.

A licensee shall obtain a signed and dated statement indicating that the client received this notice.

f) When telemedicine or telehealth is unable to provide all pertinent clinical information that a licensee exercising ordinary skill and care would deem reasonably necessary to provide care to a client, the licensee shall inform the client of this prior to the conclusion of the provision of care through telemedicine or telehealth and shall advise the client regarding the need for the client to obtain an additional in-person mental health or medical evaluation reasonably able to meet the client's needs.
