To demonstrate substantial equivalence to the education requirements, a foreign-trained applicant shall provide the Council with a letter from the National Board of Certification in Occupational Therapy (NBCOT) verifying that it has assessed the applicant's academic credentials and permitted the applicant to sit for the examination. An applicant may request from NBCOT a credential evaluation letter at [http://www.nbcot.org](http://www.nbcot.org).

b) In determining whether the applicant shall be licensed in the State, the Council shall consider evidence, which demonstrates that the applicant:

1) Is presently engaged in drug or alcohol use that is likely to impair the ability to practice occupational therapy with reasonable skill and safety. For purposes of this section, the term "presently" means at the time of application or any time within the 365 days prior to the time of application;

13:44K-3.3 LICENSURE BY RECIPROCITY

a) Upon receipt of a completed application, application fee, consent to a criminal history record background check, and requisite fee for such a check, the Council shall issue a license as an occupational therapist or occupational therapy assistant, as applicable, to any person who documents that he or she holds a valid, current corresponding license in good standing issued by another state, if:

1) The Council determines that the state that issued the license has or had at the time of issuance, education, training, and examination requirements for licensure substantially equivalent to the current standards of this State;

2) The applicant has been practicing as a licensed occupational therapist or occupational therapy assistant, as applicable, or its equivalent in another state, for a period of at least one year, and not less than 1,200 hours, within the five years prior to the date of application; and

3) The requirements of (c) below are satisfied.

b) Prior to the issuance of the license, the Council shall have received:

1) Documentation reasonably satisfactory to the Council that the applicant’s license in each state in which the applicant is licensed is in good standing;

2) The results of a criminal history record background check of the files of the Criminal Justice Information Services Division in the Federal Bureau of Investigation and the State Bureau of Identification in the Division of State Police that do not disclose a conviction for a disqualifying crime; and

3) Designation of an agent in this State for service of process if the applicant is not a State resident and does not have an office in this State.

c) For purposes of this section, “good standing” means that:
1) No action has been taken against the applicant’s license by any licensing board;

2) No action adversely affecting the applicant’s privileges to practice occupational therapy has been taken by any out-of-State institution, organization, or employer;

3) No disciplinary proceeding is pending that could affect the applicant’s privileges to practice occupational therapy;

4) All fines levied by any out-of-State board have been paid; and

5) There is no pending or final action by any criminal authority for violation of law or regulation, or any arrest or conviction for any criminal or quasi-criminal offense under the laws of the United States, New Jersey, or any other state, including, but not limited to: criminal homicide; aggravated assault; sexual assault, criminal sexual contact, or lewdness; or any offense involving any controlled dangerous substance or controlled dangerous substance analog.

d) For purposes of this section, a “substantially equivalent” examination need not be identical to the current examination requirements of this State, but such examination shall be nationally recognized and of comparable scope and rigor.

e) If the education and examination requirements in the state in which the applicant is licensed are not substantially equivalent to the Council’s current standards as required in (a) above, the Council will consider an applicant’s individual experience to compensate for such disparity. In making a determination whether an applicant’s experience would compensate for such disparity in substantial equivalence in education or examination, the Council shall consider the following:

1) Length of the experience;

2) Whether the experience was supervised by another individual;

3) The applicant’s professional history;

4) The applicant’s employment history; and

5) The applicant’s education history.

f) Not later than six months after the issuance of a license, an applicant shall provide the Council with evidence reasonably satisfactory to the Council verifying the applicant’s education, training, and examination results.
g) The Council, after the licensee has been given notice and an opportunity to be heard, may revoke any license based on a license issued by another state obtained through fraud, deception, or misrepresentation.

h) An applicant shall complete the New Jersey Jurisprudence Orientation.

i) The Council may grant a license without examination to an applicant seeking reciprocity who holds a corresponding license from another state who does not meet the good standing requirement of (a) above due to a pending action by a licensing board, a pending action by an out-of-State institution, organization, or employer affecting the applicant's privileges to practice, a pending disciplinary proceeding, or a pending criminal charge or arrest for a crime, provided the alleged conduct of the applicant that is the subject of the action, proceeding, charge, or arrest, assuming it is true, does not demonstrate a serious inability to practice occupational therapy; adversely affect the public health, safety, or welfare; result in economic or physical harm to a person; or create a significant threat of such harm.

2) Following the five instances of direct observation of the licensed occupational therapy assistant's application of a particular type of modality, the supervising occupational therapist shall determine the level of supervision required of the occupational therapy assistant, consistent with the requirements of N.J.A.C. 13:44K-6.3(b).

i) Notwithstanding (e)2 above, the occupational therapist shall continue to provide close supervision for any occupational therapy assistant who has been engaged in the practice of occupational therapy services for less than one year on a full-time basis, consistent with the requirements of N.J.A.C. 13:44K-6.3(b); and

i) A licensed occupational therapy assistant who uses advanced physical agent modalities without having satisfied the requirements of this section shall be deemed to have engaged in professional misconduct and may be subject to the penalties set forth in N.J.S.A. 45:1-21 et seq.

j) Notwithstanding the fact that a licensed occupational therapy assistant is permitted to use advanced physical agent modalities because he or she has satisfied the training requirements of this section, a licensed occupational therapy assistant shall not use a specific advanced physical agent modality that he or she has not been trained to use until he or she is familiar with the device's proper use and contraindications, and until he or she has been directly observed under close supervision by a supervising occupational therapist in the application of the modality at least five times in a patient treatment setting. Following such direct observation, the licensed occupational therapy assistant may use the modality under the supervision of a licensed occupational therapist consistent with the requirements of (e)2 above. 1) Is located in New Jersey and provides occupational therapy services to any client located in or out of New Jersey by means of telemedicine or telehealth; or

2) Is located outside of New Jersey and provides occupational therapy services to any client located in New Jersey by means of telemedicine or telehealth.

d) Notwithstanding N.J.S.A. 45:1-62 and (c) above, a healthcare provider located in another state who consults with a licensee in New Jersey through the use of information and communications technologies, but does not direct client care, will not be considered as providing health care services to a client in New Jersey consistent with N.J.S.A. 45:37-51, et seq., and will not be required to obtain licensure in New Jersey in order to provide such consultation.

"Telemedicine" does not include the use, in isolation, of audio-only telephone conversation, electronic mail, instant messaging, phone text, or facsimile transmission.
13:44K-7.3 STANDARD OF CARE

a) Prior to providing services through telemedicine or telehealth, a licensee shall determine whether providing those services through telemedicine or telehealth would be consistent with the standard of care applicable for those services when provided in-person.

b) If a licensee determines, either before or during the provision of occupational therapy services, that services cannot be provided through telemedicine or telehealth in a manner that is consistent with in-person standards of care, the licensee shall not provide or supervise services through telemedicine or telehealth.

1) An occupational therapy assistant or any licensee working under supervision shall be responsible for determining whether occupational therapy services can be provided through telemedicine or telehealth in a manner that is consistent with in-person standards of care.

c) A licensee who determines that services cannot be provided through telemedicine or telehealth pursuant to (b) above shall advise the client to obtain services in-person.

d) A licensee who provides a treatment, or consultation recommendation, including discussions regarding the risk and benefits of a client's treatment options, through telemedicine or telehealth, shall be held to the same standard of care or practice standards as are applicable to in-person settings.

13:44K-7.4 LICENSEE-CLIENT RELATIONSHIP

a) Prior to providing services through telemedicine or telehealth, a licensee shall establish a licensee-client relationship by:

1) Identifying the client with, at a minimum, the client's name, date of birth, phone number, and address. A licensee may also use a client's assigned identification number, Social Security number, photo, health insurance policy number, or other identifier associated directly with the client; and

2) Disclosing and validating the licensed occupational therapist or occupational therapy assistant's identity, license, title, and, if applicable, specialty and board certifications.

b) Prior to initiating contact with a client for the purpose of providing services to the client using telemedicine or telehealth, a licensee shall:

2) Determine as to each unique client encounter whether he or she will be able to provide the same standard of care using telemedicine or telehealth as would be provided if the services were provided in-person; and

3) Provide the client the opportunity to sign a consent form that authorizes the licensee to release client records of the encounter to the client's primary care licensee or other health care provider identified by the client.

c) Notwithstanding (a) and (b) above, occupational therapy services may be provided through telemedicine or telehealth without a proper licensee-client relationship if the provision of occupational therapy services is:

1) For informal consultations with another health care provider performed by a licensee outside the context of a contractual relationship, or on an irregular or infrequent basis, without the expectation or exchange of direct or indirect compensation;

2) During episodic consultations by a health care specialist located in another jurisdiction who provides consultation services, upon request, to a licensee in this State;

3) Related to health care assistance provided in response to an emergency or disaster, provided that there is no charge for the medical assistance; or

4) Provided by a substitute licensee acting on behalf, and at the designation, of an absent licensee in the same specialty on an on-call or cross-coverage basis.

13:44K-7.5 PROVISION OF OCCUPATIONAL THERAPY SERVICES THROUGH TELEMEDICINE OR TELEHEALTH

b) Prior to providing services through telemedicine or telehealth, a licensee shall determine the client's originating site and record this information in the client's record.

c) A licensee providing healthcare services through telemedicine shall use interactive, real-time, two-way communication technologies, which shall include, except as provided at (e) below, a video component which allows a licensee to see a client and the client to see the licensee during the provision of occupational therapy services.
d) A licensee providing services through telemedicine or telehealth may use asynchronous store-and-forward technology to allow for the electronic transmission of:

1) Images;
2) Diagnostics;
3) Data; and
4) Medical information.

e) If, after accessing and reviewing the client's records, a licensee determines that he or she is able to meet the standard of care for such services if they were being provided in-person without using the video component described at (c) above, the licensee may use interactive, real-time, two-way audio in combination with asynchronous store-and-forward technology, without a video component.

f) Prior to providing services through telemedicine or telehealth, a licensee shall review any medical history, or medical records provided by a client as follows:

1) For an initial encounter with a client, medical history, medical records, and any other relevant client records including, but not limited to, educational, vocational, or social records; shall be reviewed prior to the provision of occupational therapy services through telemedicine or telehealth; and
2) For any subsequent interactions with a client, medical history, medical records, and any other relevant client records including, but not limited to, educational, vocational, or social records, shall be reviewed either prior to the provision of occupational therapy services through telemedicine or telehealth or contemporaneously with the encounter with the client.

g) During and after the provision of occupational therapy services through telemedicine or telehealth, a licensee shall provide his or her name, professional credentials, and contact information to the client. Such contact information shall enable the client to contact the licensee for at least 72 hours following the provision of services, or for a longer period if warranted by the client's circumstances and accepted standards of care.

h) After the provision of occupational therapy services through telemedicine or telehealth, a licensee shall provide the client, upon request, with his or her records reflecting the services provided.
i) A licensee shall provide, upon a client's written request, the client's information to the client's primary care provider or to other healthcare providers.

j) A licensee engaging in telemedicine or telehealth shall refer a client for follow-up care when necessary.

13:44K-7.6 RECORDS

A licensee who provides services through telemedicine or telehealth shall maintain a record of the care provided to a client. Such records shall comply with the requirements at N.J.A.C. 13:44K-10.1, and all other applicable State and Federal statutes, rules, and regulations for recordkeeping, confidentiality, and disclosure of a client's medical record.

13:44K-7.7 PREVENTION OF FRAUD AND ABUSE

1) Authentication and authorization of users;

2) Authentication of the client during the initial intake pursuant to N.J.A.C. 13:44K-7.4(a)1;

standards under 45 CFR 160 and 164, which are incorporated herein by reference, relating to privacy of individually identifiable health information.

b) Written privacy practices pursuant to (a) above shall include privacy and security measures that assure confidentiality and integrity of client-identifiable information. Transmissions, including client email, prescriptions, and laboratory results must be password protected, encrypted electronic prescriptions, or protected through substantially equivalent authentication techniques.

c) A licensee who becomes aware of a breach in confidentiality of client information, as defined at 45 CFR 164.402, shall comply with the reporting requirements at 45 CFR 164.

d) Licensees, or their authorized representatives, shall provide a client, prior to evaluation or treatment, with copies of written privacy practices and shall obtain the client's written acknowledgement of receipt of the notice.

e) Licensees who provide services through telemedicine or telehealth, or their authorized representatives, shall, prior to providing services, give clients notice regarding telemedicine and telehealth, including the risks and benefits of being treated through telemedicine or telehealth and how to receive follow-up care or assistance in the event of an adverse reaction to the treatment or in the event of an inability to communicate as a result of a technological or equipment failure. A licensee shall obtain a signed and dated statement indicating that the client received this notice.

f) When telemedicine or telehealth is unable to provide all pertinent clinical information that a licensee exercising ordinary skill and care would deem reasonably necessary to provide care to a client, the licensee shall inform the client of this prior to the conclusion of the provision of care through telemedicine or telehealth and shall advise the client regarding the need for the client to obtain an additional in-person medical evaluation reasonably able to meet the client's needs.

SUBCHAPTER 8.
GENERAL OBLIGATIONS OF LICENSEES

13:44K-8.1 NOTIFICATION OF CHANGE OF ADDRESS OF RECORD; SERVICE OF PROCESS

b) A licensee shall use only the title or designation corresponding to his or her license.

13:44K-8.4 AIDING AND ABETTING UNLICENSED PRACTICE

It shall be professional misconduct for a licensee to aid or assist any person engaging in conduct that violates N.J.A.C. 13:44K-8.3 and shall constitute a deviation from the normal standards of practice required of a licensee, which may subject the licensee to the penalties of N.J.S.A. 45:1-21.

13:44K-8.5 SEXUAL MISCONDUCT

a) As used in this section, the following terms have the following meanings unless the context clearly indicates otherwise:

"Client" means any person who is the recipient of occupational therapy evaluation, instruction, treatment, or consultation rendered by a licensee.

"Client-therapist relationship" means a relationship between an occupational therapist, occupational therapy assistant, or temporarily licensed occupational therapist or occupational therapy assistant, and the client wherein the licensee owes a continuing duty to the client to render occupational therapy services consistent with his or her training and experience.

"Licensee" means any person licensed to engage in practice as an occupational therapist, occupational therapy assistant or temporarily licensed occupational therapist or occupational therapy assistant in the State of New Jersey.

"Sexual contact" means the knowing touching of a person’s body directly or through clothing, where the circumstances surrounding the touching would be construed by a reasonable person to be motivated by the licensee’s own prurient interest or for sexual
arousal or gratification. "Sexual contact" includes, but is not limited to, the imposition of a part of the licensee's body upon a part of the client's body, sexual penetration, or the insertion or imposition of any object or any part of a licensee or client's body into or near the genital, anal or other opening of the other person's body. "Sexual contact" does not include the touching of a client's body which is necessary during the performance of a generally accepted and recognized occupational therapy procedure.

"Sexual harassment" means solicitation of any sexual act, physical advances, or verbal or non-verbal conduct that is sexual in nature, and which occurs in connection with a licensee's activities or role as a provider of occupational therapy services, and that either: is unwelcome, is offensive to a reasonable person, or creates a hostile workplace environment, and the licensee knows, should know, or is told this; or is sufficiently severe or intense to be abusive to a reasonable person in that context. "Sexual harassment" may consist of a single extreme or severe act or of multiple acts and may include, but is not limited to, conduct of a licensee with a client, co-worker, employee, student or supervisee whether or not such individual is in a subordinate position to the licensee. "Sexual harassment" may also include conduct of a nonsexual nature if it is based on the sex of an individual.

"Spouse" means the husband, wife, civil union partner or fiancée of the licensee or an individual involved in a long-term committed relationship with the licensee. For purposes of the definition of "spouse," a long-term committed relationship means a relationship, which is at least six months in duration.

b) A licensee shall not engage in sexual contact with a client or immediate family member or guardian of a client with whom he or she has a client-therapist relationship. The client-therapist relationship is ongoing for purposes of this section, unless:

1) Occupational therapy is terminated by way of written notice to the client and is documented in the client record; and

2) The last occupational therapy was rendered more than six months ago.

c) In circumstances where the client is, or should be recognized by the licensee as, clearly vulnerable by reason of emotional or cognitive disorder to exploitive influence by the licensee, the prohibition on sexual contact shall extend indefinitely.

d) A licensee shall not seek or solicit sexual contact with a client or immediate family member or guardian of a client with whom he or she has a client-therapist relationship and shall not seek or solicit sexual contact with any person in exchange for professional services.
e) A licensee shall not engage in any discussion of an intimate sexual nature with a client, unless that discussion is directly related to a proper occupational therapy purpose. Such discussion shall not include disclosure by the licensee of his or her own sexual relationships.

f) A licensee shall provide privacy and examination conditions which prevent the exposure of the unclothed body of the client. Appropriate draping measures shall be employed to protect client privacy.

g) A licensee shall not engage in sexual harassment either within or outside of the professional setting.

h) A licensee shall not engage in any other activity which would lead a reasonable person to believe that the activity serves the licensee's personal prurient interests or which is for the sexual arousal, or sexual gratification of the licensee or client or which constitutes an act of sexual abuse.

i) Violation of any of the prohibitions or directives set forth in (c) through (h) above shall constitute professional misconduct pursuant to N.J.S.A. 45:13-21(e).

j) Nothing in this section shall be construed to prevent a licensee from rendering occupational therapy to a spouse, providing that the rendering of such occupational therapy is consistent with accepted standards of occupational therapy and that the performance of occupational therapy is not utilized to exploit the client spouse for the sexual arousal or sexual gratification of the licensee.

k) It shall not be a defense to any action under this section that:

1) The client solicited or consented to sexual contact with the licensee; or
2) The licensee is in love with or held affection for the client.

**13:44K-8.6 LICENSE RENEWAL**

a) The Council shall send a notice of renewal to each licensed occupational therapist and licensed occupational therapy assistant, at least 60 days prior to the expiration of the license. The notice of renewal shall explain inactive renewal and advise the licensee of the option to renew as inactive. If the notice to renew is not sent 60 days prior to the expiration date, no monetary penalties or fines shall apply to the holder for failure to renew provided that the license is renewed within 60 days from the date the notice is sent or within 30 days following the date of license expiration, whichever is later.
b) A licensee shall renew his or her license for a period of two years from the last expiration date. The licensee shall submit a renewal application to the Council, along with the renewal fee set forth in N.J.A.C. 13:44K-11.1, prior to the date of license expiration.

c) A licensee may renew his or her license by choosing inactive status. A licensee electing to renew his or her license as inactive shall not engage in the practice of occupational therapy, occupational therapy assisting, or hold himself or herself out as eligible to engage in the practice of occupational therapy or occupational therapy assisting in New Jersey until such time as the license is returned to active status.

d) If a licensee does not renew the license prior to its expiration date, the licensee may renew the license within 30 days of its expiration by submitting a renewal application, a renewal fee, and a late fee as set forth in N.J.A.C. 13:44K-11.1. During this 30-day period, the license shall be valid and the licensee shall not be deemed practicing without a license, as applicable.

e) A licensee who fails to submit a renewal application within 30 days of license expiration shall have his or her license suspended without a hearing.

f) A licensee who continues to engage in the practice of occupational therapy or occupational therapy assisting with a suspended license shall be deemed to be engaging in the unauthorized practice of occupational therapy or occupational therapy assisting and shall be subject to action consistent with N.J.S.A. 45:14-1 et seq., even if no notice of suspension has been provided to the individual.

13:44K-8.7 LICENSE REACTIVATION

a) A licensee who holds an inactive license pursuant to N.J.A.C. 13:44K-8.6(c) may apply to the Council for reactivation of the inactive license. A licensee seeking reactivation of an inactive license shall submit:

1) A renewal application;

2) A certification of employment listing each job held during the period the license was inactive, which includes the name, address, and telephone number of each employer; and

3) 3. The renewal fee for the biennial period for which reactivation is sought as set forth in N.J.A.C. 13:44K-11.1.

If that examination or assessment identifies deficiencies or educational needs, the Council may require the applicant as a condition of reinstatement of licensure to take and successfully complete any education or training or to submit to any supervision, monitoring, or limitations as the Council determines is necessary to assure that the applicant practices with reasonable skill and safety.
