**45:1-2.2 Membership of certain boards and commissions; appointment, removal, quorum**

a. All members of the several professional boards and commissions shall be appointed by the Governor in the manner prescribed by law; except in appointing members other than those appointed pursuant to subsection b. or subsection c., the Governor shall give due consideration to, but shall not be bound by, recommendations submitted by the appropriate professional organizations of this State.

b. In addition to the membership otherwise prescribed by law, the Governor shall appoint in the same manner as presently prescribed by law for the appointment of members, two additional members to represent the interests of the public, to be known as public members, to each of the following boards and commissions: the New Jersey State Board of Accountancy, the New Jersey State Board of

Architects, the New Jersey State Board of Cosmetology and Hairstyling, the New Jersey State Board of Dentistry, the State Board of Mortuary Science of New Jersey, the State Board of Professional Engineers and Land Surveyors, the State Board of Medical Examiners, the New Jersey Board of Nursing, the New Jersey State Board of Optometrists, the State Board of Examiners of Ophthalmic Dispensers and Ophthalmic Technicians, the Board of Pharmacy, the State Board of Professional Planners, the State Board of Psychological Examiners, the New Jersey Real Estate Commission, the State Board of Court Reporting, the State Board of Social Work Examiners, the Elevator, Escalator, and Moving Walkway Mechanics Licensing Board, and the State Board of Veterinary Medical Examiners, and one additional public member to each of the following boards: the Board of Examiners of Electrical Contractors, the State Board of Marriage and Family Therapy Examiners, the State Board of Examiners of Master Plumbers, and the State Real Estate Appraiser Board. No public member appointed pursuant to this section shall have any association or relationship with the profession or a member thereof regulated by the board of which he is a member, where such association or relationship would prevent such public member from representing the interest of the public. Such a relationship includes a relationship with members of one's immediate family; and such association includes membership in the profession regulated by the board. To receive services rendered in a customary client relationship will not preclude a prospective public member from appointment. This paragraph shall not apply to individuals who are public members of boards on the effective date of this act.

It shall be the responsibility of the Attorney General to insure that no person with the aforementioned association or relationship or any other questionable or potential conflict of interest shall be appointed to serve as a public member of any board regulated by this section.

Where a board is required to examine the academic and professional credentials of an applicant for licensure or to test such applicant orally, no public member appointed pursuant to this section shall participate in such examination process; provided, however, that public members shall be given notice of and may be present at all such examination processes and deliberations concerning the results thereof, and, provided further, that public members may participate in the development and establishment of the procedures and criteria for such examination processes.

c. The Governor shall designate a department in the Executive Branch of the State Government which is closely related to the profession or occupation regulated by each of the boards or commissions designated in section 1 of P.L.1971, c.60 (C.45:1-2.1) and shall appoint the head of such department, or the holder of a designated office or position in such department, to serve without compensation at the pleasure of the Governor as a member of such board or commission.

d. A majority of the voting members of such boards or commissions shall constitute a quorum thereof and no action of any such board or commission shall be taken except upon the affirmative vote of a majority of the members of the entire board or commission.

- a. The officers and members shall be compensated on a per diem basis in the amount of \$25.00 or an amount to be determined by the Attorney General, with the approval of the State Treasurer, but not to exceed \$100.00 per diem or \$2,500.00 annually, and shall be reimbursed for actual expenses reasonably incurred in the performance of their official duties. Such moneys shall be paid according to rules and regulations promulgated by the Attorney General.
- b. The executive secretary shall receive such salary as shall be determined by the appointing authority within the limits of available appropriations and shall serve at its pleasure. Any such executive secretary who holds a certificate, license or registration issued by the board or commission by which he is employed shall not during such employment be permitted to engage in any profession or occupation regulated by the board or commission.
- c. The head of the department to which such board or commission is assigned shall maintain within any public building, whether owned or leased by the State, suitable quarters for the board's or commission's office and meeting place, provided that no such office or meeting place shall be within premises owned or occupied by an officer or member of such board or commission.

Each member of the boards mentioned in section 45:1-2 of this title shall be entitled to his actual traveling and other expenses incurred in the performance of his duties, which sum shall be paid from the license fees and other sources of income of such boards. Such boards shall also be entitled to expend from their income such sums as shall be necessary to defray all proper expenses incurred by them in the performance of their duties, including the compensation of any of their officers or agents whom they are authorized to compensate. Such boards, if authorized to collect an annual registration or license fee from persons licensed by them, may retain in their treasuries the fees so collected and use the same for the purpose of defraying the expenses of securing evidence against and prosecuting persons violating the provisions of the laws with the enforcement of which they are charged, or, in case the revenue of the boards from other sources shall be insufficient to pay the salary of their secretaries and their other expenses, such fees may be expended for such purposes. Such boards shall be entitled to retain, in addition to the above, at least one hundred dollars in their treasuries for the purpose of preparing and holding their examinations. On or before October thirty-first in each year such boards shall pay to the state treasurer all moneys remaining in their treasuries, except as above stated, which sum, when so paid, shall form a part of the state fund. Such boards shall keep accurate accounts of their receipts and expenditures, which accounts shall be subject to audit by the state comptroller.

Notwithstanding any of the provisions of Title 45 of the Revised Statutes or of any other law to the contrary, all professional or occupational licenses or certificates of registration, except such licenses or certificates issued to real estate brokers or salesmen pursuant to chapter 15 of Title 45, which prior to the effective date of this act were issued for periods not exceeding one year and were annually renewable, shall, on and after the effective date of this act, be issued for periods of two years and be biennially

After advice to the board or boards in question of his intent to proceed under this section, and the specific action he intends to take, and the failure of such board or boards to take steps in accordance with the advice of the Attorney General within 30 days of receipt of such advice, promulgate rules and regulations consistent with the provisions of this act and the Administrative Procedure Act, P.L.1968, c. 410 (C. 52:14B-1 et seq.) governing the procedure for administrative hearings before all boards within the Division of Consumer Affairs. **45:1-17.1 Supervision of certain professional, occupational licensing boards; definitions**

a. Notwithstanding the provisions of any State law, rule, or regulation to the contrary, a regulatory officer shall, in order to provide antitrust immunity to a board consistent with federal law, establish and implement a protocol consistent with the provisions of this section applicable to the proposed regulations, actions and decisions of any board under the regulatory officer's purview for which:

- (1) the majority of members are active market participants of the profession or occupation regulated by that board; and

(2) but for a vacancy or vacancies in the membership of the board, that board would otherwise have a majority of members that are active market participants.

The regulatory officer shall review any potentially anticompetitive regulation, action, or decision proposed by a board that is under the regulatory officer's purview and meets the criteria set forth in paragraph (1) or (2) of this subsection, to determine whether the proposed regulation, action, or decision displaces competition and, if so, whether it is consistent with and furthers or promotes clearly articulated and affirmatively expressed State policy or the inherent, logical, or ordinary result of that policy.

If it is determined as a result of that review that the proposed regulation, action or decision is not consistent with and does not further or promote clearly articulated and affirmatively expressed State policy, or is not the inherent, logical or ordinary result of the board's statutorily-delegated authority, or both, the regulatory officer shall disapprove, veto, modify, amend or remand to the board for the development of a factual record of the proposed regulation, action or decision, as may be necessary or appropriate.

A proposed regulation, action, or decision shall not take effect unless the regulatory officer has conducted the review authorized by this section and taken additional action as may be necessary or appropriate under this section, provided that nothing in this section shall be construed to create a private right of action, except as provided in subsection c. of this section, or preclude any action to address possible anticompetitive impacts after the proposed regulation, action, or decision takes effect. For the purposes of this subsection, no person licensed by the board whose action or decision is under review pursuant to the protocol established pursuant to this subsection shall be permitted to serve as a regulatory officer's designee for the review of that board's actions or decisions.

b. A person serving as a member of a board shall not be liable in any action for damages to any person in a civil action as a result of any action taken or recommendation or decision made within the scope of the person's function as a member of the board which was subject to review in accordance with the protocol established pursuant to subsection a. of this section, unless the person acted in bad faith or with malice. The Attorney General shall defend the person in any civil suit and the State shall provide indemnification for any damages awarded in any resulting civil action, unless the person acted in bad faith or with malice.

c. A person may file a complaint relating to any proposed regulation, action, or decision of a board that the person alleges is potentially anticompetitive. The regulatory officer who is responsible for establishing or implementing the protocol to review any potentially anticompetitive regulation, action, or decision proposed by the board shall review the complaint to determine whether the proposed regulation, action, or decision was reviewed pursuant to subsection a. of this section. The regulatory officer shall review the proposed regulation, action, or decision, pursuant to the protocol established in subsection a. of this section, if:

(1) the regulatory officer determines that the proposed regulation, action, or decision was not reviewed pursuant to subsection a. of this section but is potentially anticompetitive; or

(2) the complaint provides new information that was not previously considered during the regulatory officer's review of the proposed regulation, action, or decision. In this case, the regulatory officer shall take the new information into account and may continue to rely on the outcome of the prior review or may take action to disapprove, veto, modify, amend or remand to the board for the development of a factual record of the proposed regulation, action, or decision, as may be necessary or appropriate. The regulatory officer shall issue a written response to the person who filed the complaint advising that person accordingly.

d. As used in this section:

"Active market participant" means a member of a board who:

- (1) is licensed or certified by the board; or
- (2) owns or shares ownership in a business or professional practice that provides any service that is subject to the regulatory authority of the board.

"Board" means a board, committee, commission, or any other entity created by law to act on behalf of the State of New Jersey to license or otherwise regulate a profession or occupation in this State.

"Regulatory officer" means:

- (1) the Attorney General or the Attorney General's designee or designees, in the case of the boards located within the Division of Consumer Affairs in the Department of Law and Public Safety; or
- (2) the commissioner or the commissioner's designee or designees, in the case of a board located within another principal department of the Executive Branch of State government.

- a. Require any person to file on such form as may be prescribed, a statement or report in writing under oath, or otherwise, as to the facts and circumstances concerning the rendition of any service or conduct of any sale incidental to the discharge of any act or practice subject to an act or regulation administered by the board;

In such cases as may be necessary, the Superior Court may, on application of the Attorney General, issue an order sealing items or material subject to this subsection;

g. Require any board licensee, permit holder or registered or certified person to submit to an assessment of skills to determine whether the board licensee, permit holder or registered or certified person can continue to practice with reasonable skill and safety; and

h. Whenever a board, the director through the Attorney General, or the Attorney General investigates a consumer complaint, the board, director or the Attorney General, as applicable, shall render a final disposition of the inquiry within 120 days of the filing of the complaint; except that the 120-day period shall be tolled, based upon the documented approval of the Attorney General or the Attorney General's designee, whenever additional time is required: to obtain information, records or evidence sought pursuant to this section that is necessary for the investigation or disposition of the consumer complaint; for the board, director or the Attorney General, as the case may be, to consider additional information furnished more than 30 days after the filing of the complaint; to conduct an administrative hearing in a contested case; for expert consultation related to the subject matter under investigation; because a complaint is, or becomes, the subject of a criminal investigation or prosecution; or for other good cause shown due to extraordinary or unforeseen circumstances. The number of consumer complaints for which tolling of the 120-day period is approved shall be reported to the Attorney General on a monthly basis, and this information shall be provided to the Legislature on a semi-annual basis. Nothing in this subsection shall be construed as affecting the jurisdiction of a board, the director through the Attorney General or the Attorney General.

In order to accomplish the objectives of this act or any act or regulation administered by a board, the Attorney General may hold such investigative hearings as may be necessary and the board, director or Attorney General may issue subpoenas to compel the attendance of any person or the production of books, records or papers at any such hearing or inquiry.

A person who is entitled by law to, and does assert such privilege, and who complies with such direction of the Attorney General shall not thereafter be prosecuted or subjected to any penalty or forfeiture in any criminal proceeding which arises out of and relates to the subject matter of the proceeding. #### **45:1-21.4 Certain information relative to address of certain applicants, licensees; nondisclosure**

Notwithstanding any other law, rule or regulation to the contrary, the director or a board shall not disclose to the public information indicating the place of residence of any applicant for or holder of a license, registration or certification without the consent of the applicant or holder, except for such disclosure to a federal or State regulatory authority or a law enforcement or judicial authority.

L.2007, c.307, s.1.

**45:1-21.5 Certain disqualifications prohibited**

a. Notwithstanding any law, rule or regulation to the contrary, an entity shall not disqualify a person from obtaining or holding any certificate, registration or license issued by an entity solely because the person has been convicted of or engaged in acts constituting any crime or offense, unless the crime or offense has a direct or substantial relationship to the activity regulated by the entity or is of a nature such that certification, registration or licensure of the person would be inconsistent with the public's health, safety, or welfare. For the purposes of this section, a judgment of conviction or a plea of guilty, non vult, nolo contendere or any other such disposition of alleged criminal activity shall be deemed a conviction. In making this determination, an entity shall consider the following:

- (1) the nature and seriousness of the crime or offense and the passage of time since its commission;
- (2) the relationship of the crime or offense to the purposes of regulating the profession or occupation regulated by the entity;
- (3) any evidence of rehabilitation of the person in the period of time following the prior conviction that may be made available to the entity; and
- (4) the relationship of the crime or offense to the ability, capacity, and fitness required to perform the duties and discharge the responsibilities of the profession or occupation regulated by the entity.

b. An entity shall not disqualify a person from obtaining or holding a certificate, registration or license issued by the entity because of a person's prior conviction of a crime or offense unless it provides the person with a written notice that the entity has determined that the conviction may disqualify the person, and an explanation for the preliminary determination that the crime or offense has a direct or substantial relationship to the activity regulated by the entity or is of a nature such that certification, registration or licensure of the person would be inconsistent with the public's health, safety, or welfare, and affords the person an opportunity to be heard before the entity prior to the entity making a final decision on whether to disqualify the person. The person shall be afforded an opportunity to be heard before the entity no later than 45 days after the entity receives the person's request for a hearing unless the person and the entity mutually agree to an extension. If, after the person is afforded the opportunity to be heard before the entity, the person is disqualified for a certificate, registration or license, the entity shall notify the person, no later than 45 days after the hearing, in writing of the following:

- (1) the grounds and reasons for the denial or disqualification;
- (2) the earliest date the person may reapply for the certificate, registration or license; and
- (3) that additional evidence of rehabilitation may be considered upon reapplication.

c. If a person's prior conviction was for murder, pursuant to N.J.S.2C:11-3 or an equivalent statute of another state or jurisdiction, or any sex offense that would qualify the person for registration pursuant to section 2 of P.L.1994, c.133 (C.2C:7-2) or under an equivalent statute of another state or jurisdiction, there shall be a rebuttable presumption that the crime or offense has a direct or substantial relationship to the activity regulated by the entity or is of such a nature that certification, registration or licensure of the person would be inconsistent with the public's health, safety, or welfare.

d. This section shall apply to any license, certification, or registration issued by any entity designated in section 2 of P.L.1978, c.73 (C.45:1-15), or by any principal department of the Executive Branch of State government or any entity within any department or any other entity hereafter created to license or otherwise regulate a profession or occupation.

e. No certificate, registration or license shall be issued by the Division of Local Government Services in the Department of Community Affairs to an individual who has, within the five years preceding the submission of an application for a certificate, registration or license, been convicted of embezzlement, fraud, crimes involving public corruption, or theft.

The Director of the Division of Consumer Affairs in the Department of Law and Public Safety, and any entity subject to the requirements of section 2 of P.L.2021, c.81 (C.45:1-21.5), shall obtain data concerning the number of, and reasons for, disqualification by any entity pursuant to section 2 of P.L.2021, c.81 (C.45:1-21.5), and annually submit a report to the Legislature, pursuant to section 2 of P.L.1991, c.164 (C.52:14-19.1), that provides the disqualification data for each entity.

L.2021, c.81, s.3.

#### **45:1-22 Additional, alternative penalties**

In addition or as an alternative, as the case may be, to revoking, suspending or refusing to renew any license, registration or certificate issued by it, a board may, after affording an opportunity to be heard:

a. Issue a letter of warning, reprimand, or censure with regard to any act, conduct or practice which in the judgment of the board upon consideration of all relevant facts and circumstances does not warrant the initiation of formal action;

b. Assess civil penalties in accordance with this act;

c. Order that any person violating any provision of an act or regulation administered by such board to cease and desist from future violations thereof or to take such affirmative corrective action as may be necessary with regard to any act or practice found unlawful by the board;

d. Order any person found to have violated any provision of an act or regulation administered by such board to restore to any person aggrieved by an unlawful act or practice, any moneys or property, real or personal, acquired by means of such act or practice; provided, however, no board shall order restoration in a dollar amount greater than those moneys received by a licensee or his agent or any other person violating the act or regulation administered by the board;

e. Order any person, as a condition for continued, reinstated or renewed licensure, to secure medical or such other professional treatment as may be necessary to properly discharge licensee functions;

f. Order any person, as a condition for continued, reinstated or renewed licensure, to submit to any medical or diagnostic testing and monitoring or psychological evaluation which may be required to evaluate whether continued practice may jeopardize the safety and welfare of the public;

g. Order any person, as a condition for continued, reinstated or renewed licensure, to submit to an assessment of skills to determine whether the licensee can continue to practice with reasonable skill and safety, and to take and successfully complete educational training determined by the board to be necessary;

h. Order any person, as a condition for continued, reinstated or renewed licensure, to submit to an assessment of skills to determine whether the licensee can continue to practice with reasonable skill and safety, and to submit to any supervision, monitoring or limitation on practice determined by the board to be necessary.

A board may, upon a duly verified application of the Attorney General that either provides proof of a conviction of a court of competent jurisdiction for a crime or offense involving moral turpitude or relating adversely to the regulated profession or occupation, or alleges an act or practice violating any provision of an act or regulation administered by such board, enter a temporary order suspending or limiting any license issued by the board pending plenary hearing on an administrative complaint; provided, however, no such temporary order shall be entered unless the application made to the board palpably demonstrates a clear and imminent danger to the public health, safety and welfare and notice of such application is given to the licensee affected by such order. If, upon review of the Attorney General's application, the board determines that, although no palpable demonstration of a clear and imminent danger has been made, the licensee's continued unrestricted practice pending plenary hearing may pose a risk to the public health, safety and welfare, the board may order the licensee to submit to medical or diagnostic testing and monitoring, or psychological evaluation, or an assessment of skills to determine whether the licensee can continue to practice with reasonable skill and safety.

In any administrative proceeding commenced on a complaint alleging a violation of an act or regulation administered by a board, such board may issue subpoenas to compel the attendance of witnesses or the production of books, records, or documents at the hearing on the complaint.

L.1978,c.73,s.9; amended 1999, c.403, s.3; 2001, c.307, s.2.

#### **45:1-23. Summary proceeding in Superior Court; injunction; orders necessary to prevent unlawful practice or remedy past unlawful activity**

Whenever it shall appear to a board, the director or the Attorney General that a violation of any act, including the unlicensed practice of the regulated profession or occupation, or regulation administered by such board has occurred, is occurring, or will occur, the Attorney General, in addition to any other proceeding authorized by law, may seek and obtain in a summary proceeding in the Superior Court an injunction prohibiting such act or practice. In any such proceeding the court may assess a civil penalty in accordance with the provisions of this act, order restoration to any person in interest of any moneys or property, real or personal, acquired by means of an unlawful act or practice and may enter such orders as may be necessary to prevent the performance of an unlawful practice in the future and to fully remedy any past unlawful activity. In any action brought pursuant to this section, the court shall not suspend or revoke any license issued by a board.

L.1978, c. 73, s. 10, eff. July 13, 1978.

#### **45:1-24. Failure to pay penalties; enforcement**

Upon the failure of any person to comply within 10 days after service of any order of a board directing payment of penalties or restoration of moneys or property, the Attorney General or the secretary of such

board may issue a certificate to the Clerk of the Superior Court that such person is indebted to the State for the payment of such penalty and the moneys or property ordered restored. A copy of such certificate shall be served upon the person against whom the order was entered. Thereupon the clerk shall immediately enter upon his record of docketed judgments the name of the person so indebted and of the State, a designation of the statute under which the penalty is imposed, the amount of the penalty imposed, and amount of moneys ordered restored, a listing of property ordered restored, and the date of the certification. Such entry shall have the same force and effect as the entry of a docketed judgment in the Superior Court, and the Attorney General shall have all rights and remedies of a judgment creditor in addition to exercising any other available remedies. Such entry, however, shall be without prejudice to the right of appeal to the Appellate Division of the Superior Court from the board's order.

An action to enforce the provisions of any order entered by a board or to collect any penalty levied thereby may be brought in any municipal court or the Superior Court in summary manner pursuant to "the penalty enforcement law" (N.J.S.2A:58-1 et seq.) and the rules of court governing the collection of civil penalties. Process in such action shall be by summons or warrant, and in the event that the defendant fails to answer such action, the court shall issue a warrant for the defendant's arrest for the purpose of bringing such person before the court to satisfy any order entered.

L.1978,c.73,s.11; amended 1991,c.91,s.448.

#### **45:1-25 Violations, penalties**

Any person who engages in any conduct in violation of any provision of an act or regulation administered by a board shall, in addition to any other sanctions provided herein, be liable to a civil penalty of not more than \$10,000 for the first violation and not more than \$20,000 for the second and each subsequent violation. For the purpose of construing this section, each act in violation of any provision of an act or regulation administered by a board shall constitute a separate violation and shall be deemed a second or subsequent violation under the following circumstances:

- (1) an administrative or court order has been entered in a prior, separate and independent proceeding;
- (2) the person is found within a single proceeding to have committed more than one violation of any provision of an act or regulation administered by a board; or
- (3) the person is found within a single proceeding to have committed separate violations of any provision of more than one act or regulation administered by a board.

b. In lieu of an administrative proceeding or an action in the Superior Court, the Attorney General may bring an action in the name of any board for the collection or enforcement of civil penalties for the violation of any provision of an act or regulation administered by such board. Such action may be brought in summary manner pursuant to the "Penalty Enforcement Law of 1999," P.L.1999, c.274 (C.2A:58-10 et seq.) and the rules of court governing actions for the collection of civil penalties in the municipal court where the offense occurred. Process in such action may be by summons or warrant and in the event that the defendant in such action fails to answer such action, the court shall, upon finding an unlawful act or practice to have been committed by the defendant, issue a warrant for the defendant's arrest in order to bring such person before the court to satisfy the civil penalties imposed. In any action commenced pursuant to this section, the court may order restored to any person in interest any moneys or property acquired by means of an unlawful act or practice.

c. Any action alleging the unlicensed practice of a profession or occupation shall be brought pursuant to this section or, where injunctive relief is sought, by an action commenced in the Superior Court.

d. In any action brought pursuant to this act, a board or the court may order the payment of costs for the use of the State, including, but not limited to, costs of investigation, expert witness fees and costs, attorney fees and costs, and transcript costs.

**45:1-54 Findings, declarations relative to sexual orientation change efforts**

The Legislature finds and declares that:

a. Being lesbian, gay, or bisexual is not a disease, disorder, illness, deficiency, or shortcoming. The major professional associations of mental health practitioners and researchers in the United States have recognized this fact for nearly 40 years;

b. The American Psychological Association convened a Task Force on Appropriate Therapeutic Responses to Sexual Orientation. The task force conducted a systematic review of peer-reviewed journal literature on sexual orientation change efforts, and issued a report in 2009. The task force concluded that sexual orientation change efforts can pose critical health risks to lesbian, gay, and bisexual people, including confusion, depression, guilt, helplessness, hopelessness, shame, social withdrawal, suicidality, substance abuse, stress, disappointment, self-blame, decreased self-esteem and authenticity to others, increased self-hatred, hostility and blame toward parents, feelings of anger

and betrayal, loss of friends and potential romantic partners, problems in sexual and emotional intimacy, sexual dysfunction, high-risk sexual behaviors, a feeling of being dehumanized and untrue to self, a loss of faith, and a sense of having wasted time and resources;

c. The American Psychological Association issued a resolution on Appropriate Affirmative Responses to Sexual Orientation Distress and Change Efforts in 2009, which states: "[T]he [American Psychological Association] advises parents, guardians, young people, and their families to avoid sexual orientation change efforts that portray homosexuality as a mental illness or developmental disorder and to seek psychotherapy, social support, and educational services that provide accurate information on sexual orientation and sexuality, increase family and school support, and reduce rejection of sexual minority youth";

d. (1) The American Psychiatric Association published a position statement in March of 2000 in which it stated: "Psychotherapeutic modalities to convert or 'repair' homosexuality are based on developmental theories whose scientific validity is questionable. Furthermore, anecdotal reports of 'cures' are counterbalanced by anecdotal claims of psychological harm. In the last four decades, 'reparative' therapists have not produced any rigorous scientific research to substantiate their claims of cure. Until there is such research available, [the American Psychiatric Association] recommends that ethical practitioners refrain from attempts to change individuals' sexual orientation, keeping in mind the medical dictum to first, do no harm;

(2) The potential risks of reparative therapy are great, including depression, anxiety and self-destructive behavior, since therapist alignment with societal prejudices against homosexuality may reinforce self-hatred already experienced by the patient. Many patients who have undergone reparative therapy relate that they were inaccurately told that homosexuals are lonely, unhappy individuals who never achieve acceptance or satisfaction. The possibility that the person might achieve happiness and satisfying interpersonal relationships as a gay man or lesbian is not presented, nor are alternative approaches to dealing with the effects of societal stigmatization discussed; and

(3) Therefore, the American Psychiatric Association opposes any psychiatric treatment such as reparative or conversion therapy which is based upon the assumption that homosexuality per se is a mental disorder or based upon the a priori assumption that a patient should change his or her sexual homosexual orientation";

e. The American School Counselor Association's position statement on professional school counselors and lesbian, gay, bisexual, transgender, and questioning (LGBTQ) youth states: "It is not the role of the professional school counselor to attempt to change a student's sexual orientation/gender identity but instead to provide support to LGBTQ students to promote student achievement and personal well-being. Recognizing that sexual orientation is not an illness and does not require treatment, professional school counselors may provide individual student planning or responsive services to LGBTQ students to promote self-acceptance, deal with social acceptance, understand issues related to coming out, including issues that families may face when a student goes through this process and identify appropriate community resources";

f. The American Academy of Pediatrics in 1993 published an article in its journal, Pediatrics, stating: "Therapy directed at specifically changing sexual orientation is contraindicated, since it can provoke guilt and anxiety while having little or no potential for achieving changes in orientation";

g. The American Medical Association Council on Scientific Affairs prepared a report in 1994 in which it stated: "Aversion therapy (a behavioral or medical intervention which pairs unwanted behavior, in

this case, homosexual behavior, with unpleasant sensations or aversive consequences) is no longer recommended for gay men and lesbians. Through psychotherapy, gay men and lesbians can become comfortable with their sexual orientation and understand the societal response to it";

h. The National Association of Social Workers prepared a 1997 policy statement in which it stated: "Social stigmatization of lesbian, gay, and bisexual people is widespread and is a primary motivating factor in leading some people to seek sexual orientation changes. Sexual orientation conversion therapies assume that homosexual orientation is both pathological and freely chosen. No data demonstrates that reparative or conversion therapies are effective, and, in fact, they may be harmful";

i. The American Counseling Association Governing Council issued a position statement in April of 1999, and in it the council states: "We oppose 'the promotion of "reparative therapy" as a "cure" for individuals who are homosexual";

j. (1) The American Psychoanalytic Association issued a position statement in June 2012 on attempts to change sexual orientation, gender, identity, or gender expression, and in it the association states: "As with any societal prejudice, bias against individuals based on actual or perceived sexual orientation, gender identity or gender expression negatively affects mental health, contributing to an enduring sense of stigma and pervasive self-criticism through the internalization of such prejudice; and

(2) Psychoanalytic technique does not encompass purposeful attempts to 'convert,' 'repair,' change or shift an individual's sexual orientation, gender identity or gender expression. Such directed efforts are against fundamental principles of psychoanalytic treatment and often result in substantial psychological pain by reinforcing damaging internalized attitudes";

k. The American Academy of Child and Adolescent Psychiatry in 2012 published an article in its journal, Journal of the American Academy of Child and Adolescent Psychiatry, stating: "Clinicians should be aware that there is no evidence that sexual orientation can be altered through therapy, and that attempts to do so may be harmful. There is no empirical evidence adult homosexuality can be prevented if gender nonconforming children are influenced to be more gender conforming. Indeed, there is no medically valid basis for attempting to prevent homosexuality, which is not an illness. On the contrary, such efforts may encourage family rejection and undermine self-esteem, connectedness and caring, important protective factors against suicidal ideation and attempts. Given that there is no evidence that efforts to alter sexual orientation are effective, beneficial or necessary, and the possibility that they carry the risk of significant harm, such interventions are contraindicated";

l. The Pan American Health Organization, a regional office of the World Health Organization, issued a statement in May of 2012 and in it the organization states: "These supposed conversion therapies constitute a violation of the ethical principles of health care and violate human rights that are protected by international and regional agreements." The organization also noted that reparative therapies "lack medical justification and represent a serious threat to the health and well-being of affected people";

m. Minors who experience family rejection based on their sexual orientation face especially serious health risks. In one study, lesbian, gay, and bisexual young adults who reported higher levels of family rejection during adolescence were 8.4 times more likely to report having attempted suicide, 5.9 times more likely to report high levels of depression, 3.4 times more likely to use illegal drugs, and 3.4 times more likely to report having engaged in unprotected sexual intercourse compared with peers from families that reported no or low levels of family rejection. This is documented by Caitlin Ryan et al. in

their article entitled Family Rejection as a Predictor of Negative Health Outcomes in White and Latino Lesbian, Gay, and Bisexual Young Adults (2009) 123 Pediatrics 346; and

n. New Jersey has a compelling interest in protecting the physical and psychological well-being of minors, including lesbian, gay, bisexual, and transgender youth, and in protecting its minors against exposure to serious harms caused by sexual orientation change efforts.

L.2013, c.150, s.1.

#### **45:1-55 Sexual orientation change efforts prohibited for persons under 18 years old**

a. A person who is licensed to provide professional counseling under Title 45 of the Revised Statutes, including, but not limited to, a psychiatrist, licensed practicing psychologist, certified social worker, licensed clinical social worker, licensed social worker, licensed marriage and family therapist, certified psychoanalyst, or a person who performs counseling as part of the person's professional training for any of these professions, shall not engage in sexual orientation change efforts with a person under 18 years of age.

b. As used in this section, "sexual orientation change efforts" means the practice of seeking to change a person's sexual orientation, including, but not limited to, efforts to change behaviors, gender identity, or gender expressions, or to reduce or eliminate sexual or romantic attractions or feelings toward a person of the same gender; except that sexual orientation change efforts shall not include counseling for a person seeking to transition from one gender to another, or counseling that:

(1) provides acceptance, support, and understanding of a person or facilitates a person's coping, social support, and identity exploration and development, including sexual orientation-neutral interventions to prevent or address unlawful conduct or unsafe sexual practices; and

(2) does not seek to change sexual orientation.

L.2013, c.150, s.2.

#### **45:1-56 Short title**

This act shall be known and may be cited as the "Hazardous Drug Safe Handling Act."

L.2017, c.69, s.1.

#### **45:1-57 Findings, declarations relative to safe handling of hazardous drugs**

a. The Legislature finds and declares that:

(1) Health care personnel who work with or near hazardous drugs in health care settings may be exposed to these agents in the air and through contact with work surfaces, clothing, medical equipment, and patients;

(2) According to the National Institute for Occupational Safety and Health (NIOSH), which is part of the federal Centers for Disease Control and Prevention, early concerns about occupational exposure to anticancer drugs first appeared in the 1970s;

(3) Antineoplastic and other hazardous drugs have been identified with a number of acute, short-term, and chronic effects, including skin rashes, infertility, miscarriage, birth defects, liver and kidney damage, damage to the bone marrow, damage to the heart and lungs, and various cancers; and

(4) In 2004, NIOSH published an alert on preventing occupational exposures to antineoplastic drugs in health care settings. NIOSH urges that all hazardous drugs be universally handled according to standard precautions as outlined in the alert, which includes recommended procedures for assessing workplace hazards, handling hazardous drugs, and using and maintaining equipment, as well as a list of "drugs considered hazardous," which was updated in 2010, 2012, and 2014.

b. The Legislature therefore determines that it is the public policy of the State to provide for the appropriate regulation of the handling of hazardous drugs consistent with the NIOSH alert, regardless of the setting in which health care is provided, in order to protect health care personnel from potentially harmful exposure to antineoplastic and other hazardous drugs.

L.2017, c.69, s.5.

"Asynchronous store-and-forward" means the acquisition and transmission of images, diagnostics, data, and medical information either to, or from, an originating site or to, or from, the health care provider at a distant site, which allows for the patient to be evaluated without being physically present.

"Cross-coverage service provider" means a health care provider, acting within the scope of a valid license or certification issued pursuant to Title 45 of the Revised Statutes, who engages in a remote medical evaluation of a patient, without in-person contact, at the request of another health care provider who has established a proper provider-patient relationship with the patient.

"Telemedicine or telehealth organization" means a corporation, sole proprietorship, partnership, or limited liability company that is organized for the primary purpose of administering services in the furtherance of telemedicine or telehealth.

L.2017, c.117, s.1.

#### **45:1-62 Provision of health care through use of telemedicine, telehealth; requirements for provider**

a. Unless specifically prohibited or limited by federal or State law, a health care provider who establishes a proper provider-patient relationship with a patient may remotely provide health care services to a patient through the use of telemedicine. A health care provider may also engage in telehealth as may be necessary to support and facilitate the provision of health care services to patients.

b. Any health care provider who uses telemedicine or engages in telehealth while providing health care services to a patient, shall: (1) be validly licensed, certified, or registered, pursuant to Title 45 of the Revised Statutes, to provide such services in the State of New Jersey; (2) remain subject to regulation by the appropriate New Jersey State licensing board or other New Jersey State professional regulatory entity; (3) act in compliance with existing requirements regarding the maintenance of liability insurance; and (4) remain subject to New Jersey jurisdiction if either the patient or the provider is located in New Jersey at the time services are provided.

c. (1) Telemedicine services shall be provided using interactive, real-time, two-way communication technologies.

(2) A health care provider engaging in telemedicine or telehealth may use asynchronous store-and-forward technology to allow for the electronic transmission of images, diagnostics, data, and medical information; except that the health care provider may use interactive, real-time, two-way audio in combination with asynchronous store-and-forward technology, without video capabilities, if, after accessing and reviewing the patient's medical records, the provider determines that the provider is able to meet the same standard of care as if the health care services were being provided in person.

(3) The identity, professional credentials, and contact information of a health care provider providing telemedicine or telehealth services shall be made available to the patient during and after the provision of services. The contact information shall enable the patient to

contact the health care provider, or a substitute health care provider authorized to act on behalf of the provider who provided services, for at least 72 hours following the provision of services.

(4) A health care provider engaging in telemedicine or telehealth shall review the medical history and any medical records provided by the patient. For an initial encounter with the patient, the provider shall review the patient's medical history and medical records prior to initiating contact with the patient, as required pursuant to paragraph (3) of subsection a. of section 3 of P.L.2017, c.117 (C.45:1-63). In the case of a subsequent telemedicine or telehealth encounter conducted pursuant to an ongoing provider-patient relationship, the provider may review the information prior to initiating contact with the patient or contemporaneously with the telemedicine or telehealth encounter.

(5) Following the provision of services using telemedicine or telehealth, the patient's medical information shall be made available to the patient upon the patient's request, and, with the patient's affirmative consent, forwarded directly to the patient's primary care provider or health care provider of record, or, upon request by the patient, to other health care providers. For patients without a primary care provider or other health care provider of record, the health care provider engaging in telemedicine or telehealth may advise the patient to contact a primary care provider, and, upon request by the patient, assist the patient with locating a primary care provider or other in-person medical assistance that, to the extent possible, is located within reasonable proximity to the patient. The health care provider engaging in telemedicine or telehealth shall also refer the patient to appropriate follow up care where necessary, including making appropriate referrals for emergency or complimentary care, if needed. Consent may be oral, written, or digital in nature, provided that the chosen method of consent is deemed appropriate under the standard of care.

d. (1) Any health care provider providing health care services using telemedicine or telehealth shall be subject to the same standard of care or practice standards as are applicable to in-person settings. If telemedicine or telehealth services would not be consistent with this standard of care, the health care provider shall direct the patient to seek in-person care.

(2) Diagnosis, treatment, and consultation recommendations, including discussions regarding the risk and benefits of the patient's treatment options, which are made through the use of telemedicine or telehealth, including the issuance of a prescription based on a telemedicine or telehealth encounter, shall be held to the same standard of care or practice standards as are applicable to in-person settings. Unless the provider has established a proper provider-patient relationship with the patient, a provider shall not issue a prescription to a patient based solely on the responses provided in an online questionnaire.

e. The prescription of Schedule II controlled dangerous substances through the use of telemedicine or telehealth shall be authorized only after an initial in-person examination of the patient, as provided by regulation, and a subsequent in-person visit with the patient shall be required every three months for the duration of time that the patient is being prescribed the Schedule II controlled dangerous substance. However, the provisions of this subsection shall not apply, and the in-person examination or review of a patient shall not be required, when a health care provider is prescribing a stimulant which is a Schedule II controlled dangerous substance for use by a minor patient under the age of 18, provided that the health care provider is using interactive, real-time, two-way audio and video technologies when treating the patient and the health care provider has first obtained written consent for the waiver of these in-person examination requirements from the minor patient's parent or guardian.

f. A mental health screener, screening service, or screening psychiatrist subject to the provisions of P.L.1987, c.116 (C.30:4-27.1 et seq.):

Such rules and regulations shall, at a minimum:

(2) In no case shall the rules and regulations adopted pursuant to paragraph (1) of this subsection require a provider to conduct an initial in-person visit with the patient as a condition of providing services using telemedicine or telehealth.

(3) The failure of any licensing board to adopt rules and regulations pursuant to this subsection shall not have the effect of delaying the implementation of this act, and shall not prevent health care providers from engaging in telemedicine or telehealth in accordance with the provisions of this act and the practice act applicable to the provider's professional licensure, certification, or registration.

When properly identifying the patient, the provider may additionally use the patient's assigned identification number, social security number, photo, health insurance policy number, or other appropriate patient identifier associated directly with the patient;

The provider shall make this determination prior to each unique patient encounter.

b. Telemedicine or telehealth may be practiced without a proper provider-patient relationship, as defined in subsection a. of this section, in the following circumstances:

L.2020, c.133, s.1.

#### **45:1-68 Findings, declarations relative to identification of health care professionals**

The Legislature finds and declares that:

a. There are a multitude of professional degrees using the term "doctor," including "medical doctor" (M.D.); "doctor of osteopathy" (D.O.); "doctor of dental surgery" (D.D.S.); "doctor of medicine in dentistry" (D.M.D.); "doctor of podiatric medicine" (D.P.M.); "doctor of optometry" (O.D.); "doctor of chiropractic" (D.C.); "doctor of nursing" (D.N.); "doctor of psychology" (PhD);" and other designations which may be used by health care professionals.

b. A July 2018 study by the American Medical Association found that 27 percent of patients erroneously believe that a chiropractor is a medical doctor; 39 percent of patients erroneously believe that a doctor of nursing practice is a medical doctor; 43 percent of patients erroneously believe that a psychologist is a medical doctor; 47 percent of patients erroneously believe that an optometrist is a medical doctor; and 67 percent of patients erroneously believe a podiatrist is a medical doctor.

c. There are widespread differences regarding the training and qualifications required to earn the degrees of the health care professionals subject to P.L.2020, c.133 (C.45:1-67 et seq.). These differences often concern the training and skills necessary to correctly detect, diagnose, prevent, and treat serious health care conditions.

d. There is a compelling State interest in patients being promptly and clearly informed of the training and qualifications of the health care professionals who provide health care services.

e. There is a compelling State interest in the public being protected from potentially misleading and deceptive health care advertising that might cause patients to have undue expectations regarding their treatment and outcome.
